

TRUETT WALTON, district governor of Central West Texas Rotary Clubs and vice president of Hardin-Simmons University at Abilene, was a guest of Hamlin Rotary Club last week. He may be Vice President Walton, but he'll never be known as anything else but Dean Walton to scores of friends at Hamlin and elsewhere.

In telling of his recent trip to Lucerne, Switzerland, for the annual convention of Rotary International, he declared that the water he crossed on his way to Europe still seemed to be in good shape despite its use for centuries by Columbus and other fellows over the years.

"Old Columbus would marvel at today's modern ships and their equipment. Remember he had no radio, radar, ship showers, swimming pool on deck and no ship paper."

Dean said he suddenly came to realize he was a foreigner when he arrived in Europe, where everybody didn't speak English. He recalled that he had studied Spanish at school—but the convention was in Switzerland, not in Spain.

A noticeable thing about the European cities was that their approaches are not lined with wrecked automobiles and junk yards as are American cities.

AN ASTUTE MAN of Hamlin was giving some advice to his son the other day.

At the end of a rather stern lecture, he said: "Now, my boy, you understand perfectly what I mean?"

"Yes," replied the boy, "what it boils down to is this: If I do well it's because of heredity, and if I fail it's my own fault."

EASY STREET is not always good for us, we have been reminded through the years. In fact, attaining success through struggles makes one appreciate that success all the more.

An unknown author put these thoughts another way . . .

Give me hard tasks, with strength that shall not fail:

Conflict, with courage that shall never die!

Better the hill-path, climbing up toward the sky.

Than languid air and smooth sward of the vale!

Better to dare the cold wrath of the gale

Than with furled sails in port forever lie!

Give me hard tasks, with strength that shall not fail:

Conflict, with courage that shall never die!

Not for a light load fitting shoulders frail,

Not for an unearned victory I sigh;

Strong is the struggle that wins triumph high,

Not without loss the hero shall prevail;

Give me hard tasks, with strength that shall not fail!

A FRIEND was telling us the other day that somewhere around Ringgold in North Texas there is a bull wagging nothing behind him. He was one of the losers in a bull-car accident.

Highway patrol reported Alfred B. Clayton Jr. of Dallas had \$150 damage done to his car in the encounter, but neither he nor the bull suffered bodily damage.

The bull did, however, lose his tail in the mishap. That's very little bull, however!

AN ANSON MAN and his neighbor were having an argument about their ancestry.

"Sir, I'll have you understand that I'm related to the Boones!" declared one.

"Yes, yes, now I remember—your grandmother's first name was Bab."

WE ARE PROUD of lots of our American heritages of today. But we have a lot more characteristics and records that do not recall that pride.

A newspaper paraphraser had this to say recently in commenting on the great American way of life:

A group of islands in the Pacific are reported to have no public debt, no crime and no drunkenness. Steps should be taken at once to carry civilization to these unfortunate people.

DANIEL ON SAM HOUSTON'S PORCH—Governor Price Daniel is shown speaking from the porch of the home where Sam Houston once lived in Huntsville. The speech is regarded by some political pros as his first big for re-election as governor. On the front row are Mrs. Daniel, Buddy Wakefield, Governor Daniel, Judge Amos Gates and Jim Lindsey. Others are unidentified. Daniel set October 14 for a special session of the Legislature to pass laws curbing lobbyists.

HHS Homecoming Slated to Attract Many New Visitors

Advance Sign-Up Of Area People Being Planned

More than 1,250 postal cards were mailed first of the week to former students of Hamlin High School, reminding them of the third annual homecoming of ex-students on Friday and Saturday, October 18 and 19, according to Joe Ford, president, and Mrs. Jim Riddle, secretary of the Hamlin Ex-Students Association, sponsors of the gathering.

The officials declared that the names and addresses of other ex-students still are needed to complete mailing lists. Residents of the community knowing the present names and addresses of former students are urged to contact the president or secretary at once so that cards may be mailed to them.

The double reply postal cards ask recipients to indicate if they will attend the homecoming and how many will accompany them. Arrangements are being made to entertain considerably more ex-students this year than attended the homecoming last year.

Pre-registration of ex-students in this territory is being urged by officials in order to avoid congestion on the opening date. Registration of visitors will begin at noon Friday, October 18. That evening the Albany-Hamlin football game will be the feature, and a coffee for attendants will follow at the high school cafeteria. On Saturday morning a program will be given in the high school auditorium, leaders declare.

Not for a light load fitting shoulders frail,
Not for an unearned victory I sigh;
Strong is the struggle that wins triumph high,
Not without loss the hero shall prevail;
Give me hard tasks, with strength that shall not fail!

Fairview Baptist Church, Southeast of Hamlin, Is County Winner in Contest

Fairview Baptist Church, seven miles southeast of Hamlin, has been named winner of the Town and Country Achievement Award sponsored by the Jones County Baptist Association, spokesmen of the denomination said in Dallas first of the week.

The church is now competing with other associational winners in District 17 of the Baptist General Convention of Texas. Both district and associational winners will be recognized at the annual state convention in Fort Worth November 5 through 7, when the first place state award will be made.

Achievement competition is divided into three categories with points given for projects which help build a better church, community and world.

The association is one of 122 geographical areas in which the BGCT promotes such work each year. The denomination includes one out of every six persons in the state, with 3,754 churches and 1,524,000 members in Texas.

Approximately two-thirds of the churches are classified as town and country congregations.

Winning pastors in each district will receive a parchment scroll and the church a metal plaque which may be displayed in a prominent position outside the building.

Top state award last year went to Pastor Robert Wimpee and the Taylor's Valley Baptist Church in Bell County.

Numerous Cases of Flu Reported in Area

Numerous cases of "flu" have been reported in the Hamlin section in recent days. This trend is typical over most of the country, doctors say.

Numbers of cases of Asian influenza have been reported in several sections of the country, but no cases of that variety have been reported at Hamlin so far, declare local physicians.

A newspaper paraphraser had this to say recently in commenting on the great American way of life:

A group of islands in the Pacific are reported to have no public debt, no crime and no drunkenness. Steps should be taken at once to carry civilization to these unfortunate people.

Edmund W. Robb To Lead in First Methodist Revival

Pastor Edmund W. Robb will do the preaching in an eight-day series of revival services beginning Sunday evening at the First Methodist Church. The services will continue through the following Sunday evening.

During the week services will be held at 7:00 a. m. and 7:30 p. m., it is announced.

In charge of the musical program will be Rev. and Mrs. Oran Smith of Throckmorton. Smith is pastor of the Throckmorton First Methodist Church.

Rev. Robb has announced his topics for the meeting, beginning with Sunday evening, as follows: "How May I Know I Am a Christian?" "Can Prayer Be Real?" "The Solitude of Sin," "The Ministry of the Holy Spirit," "The Judgment," "The Tabernacle in the Wilderness," "The Prodigal Son," "Why Do the Righteous Suffer?" "The Second Coming of Christ," "The Passover," "The Unpardonable Sin," "The Influence of a Life," "What Is Salvation?" and "Fools, Wise or Otherwise."

Members of the men's class of the church will serve coffee and doughnuts each week-day morning from 6:30 until 7:00 o'clock, it is announced. The public is invited.

NO FUN THAT WAY.

Slush—"His, shay, what does your wife shay when you stay out late?"

Sop—"Ain't gotta wife."

Slush—"Then why do you stay out late?"

Another Scourge of Mosquitoes in Area

Another scourge of late summer mosquitoes has been prevalent in the Hamlin community for several weeks, citizens report.

The mosquitoes are a new type, being smaller and blacker than those that invaded the section after the big rains in April and May. People report that they are so small that they can enter the homes through ordinary screen windows.

Community A—Bryan Agnew, chairman; Harold Valliant, regular member; J. K. French and W. D. Beauchamp, alternates.

Community B—Joe Benton, chairman; Willie Boedeker, vice chairman; John Ed Youngquist, regular member; L. W. Larson and Harrell McDuff, alternates.

Community C—Arden Beasley, chairman; Clyde Morrow, vice chairman; Franklin Godfrey, regular member; Davie Rister, alternate. The tie for the place of the second alternate in this community will be broken by the casting of lots.

Community D—Walter H. Kelso, chairman; Orvel Hill, vice chairman; Ernest Dixon, regular member; Clyde Jones and Earl Scott, alternates.

The four persons elected as chairmen of the community committees will meet in a county convention at 1:00 p. m. on the date of September 23, 1957, and elect the three regular and two alternate members of the county committee.

Community committees elected and county committees to be elected on September 23 will take office on October 1.

Entered at Post Office at Hamlin, Texas, for transmission through the mails as Second Class matter according to an Act of Congress on March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be correctly, gladly and promptly, upon its being brought to the attention of the management.

DROUGHT HAS CHANGED FARMING METHODS

Some good things have come of the past few years of drought. Farmers and ranchers of the Hamlin section and elsewhere have learned new lessons in soil and water conservation through terracing, contouring, deep tillage, flattened terraces, leveling and mulching stubble near the surface.

However unless it is done properly, deep tillage may make soil more vulnerable to the relentless gales of the Great Plains. But when drought strips the land of its protective cover, heavy clods of soil turned up to the surface can help to reduce wind erosion.

Deep tillage is most effective and practical on land where a deep sand 12 to 24 inches deep covers a layer of clay, says Jack Barton, extension soil and water conservation specialist. Turning the clay up can help because a rough surface gives the best resistance to wind erosion. Therefore, the more cloddy the soil the greater will be the surface stability.

Speed of tillage proved to be one of the most important factors in obtaining maximum

surface roughage, notes the specialist. Tests in Kansas indicate that trials should be made at the beginning of any deep tillage operation to see what speed will produce the greatest cloddiness under whatever local conditions exist.

Spacing, too, is important. Barton points out that chiseling at 27-inch spacings gave 50 per cent more roughness and resulted in 75 per cent less erosion than chiseling at 54-inch spacings. But it took five horsepower more tractor power to pull narrow chisels spaced at 27 inches than for those at 54 inches. Where wide spacing is necessary, duck-foot shovels would be better under some soil conditions to bring up enough clods.

Depth of tillage had less effect than these other controllable factors in the Kansas tests. The most effective depth depended upon speed, spacing of tool heads and other things. As a general rule, deeper tillage produced greater surface roughness, but increased roughness was not enough in most cases to justify the extra horsepower required.

Who Should Pay?

Throughout the country efforts are periodically made to increase the legal load limits of the huge commercial trucks. That happened this year in Texas. It caused The Austin Statesman to point out that, according to authorities, ". . . a highway can be built for about \$40,000 a mile for normal passenger traffic, while the same highway costs around \$60,000 a mile for the present load limits; and would cost somewhere around \$75,000 a mile to be built heavy enough for the proposed increase in the weight limit. A legitimate question for citizens, taxpayers and legislators is: If that sort of highways are to be built, who should pay the added cost?"

That question gets more potent all the time in the light of the multi-billion dollar new federal highway program, and the ever-increasing appropriations the states are called upon to provide for both building and maintaining roads.

The principle involved is not confined to trucks and highways. Large sums must be spent, in the interest of safety, on improving control of the nation's airways. The expended control is made necessary, in large part, by the growth of commercial air travel. It is certainly reasonable to say that the airlines should pay their fair share of the bill.

This is not a matter of penalizing the trucks or the airlines or any other enterprise. It is simply a matter of relieving the general taxpayers of some special costs which have been brought about by the transport agencies in question.

Editorial of the Week

MOTOR SCOOTER ACCIDENT

The tragic accident here Saturday evening in which young Oliver McDougle of Post and Joyce Bilberry of Wichita Falls were injured when the motor scooter on which they were riding collided with an automobile points up one situation which demands attention now.

Whether most parents know it or not, a motor scooter is a motor vehicle under Texas law and youngsters are not legally eligible to drive them until they have qualified for driver licenses. That means they should be 16 years of age.

Oliver is a fine youngster and one of The Dispatch's best paper boys. He is the kind of a boy who industriously and pleasantly earned his own spending money. He was as proud as punch of his motor scooter, just as are other youngsters who own them. But the fact remains that motor scooters are motor vehicles and the law says you must be 16 to drive them.

These irresistible forces alone possess the power to exalt and unify, and have inspired the noblest deeds of valor and sacrifice. However difficult the path, everyone will find courage in the knowledge that the beautiful things in life endure for all time.

RECALLING Other Years

Being news items taken from old files of Your Home Town Newspaper, The Herald.

TWENTY YEARS AGO

Goings-on in the Hamlin community 20 years ago are reflected in the following news briefs, reproduced from the issue of The Hamlin Herald dated September 17, 1937:

Many Hamlin young people are leaving this week for college and university enrollments.

One of the many Future Farmers of America chapters has been organized at Hamlin High School. George Dean was elected president.

Cotton picking in the Hamlin region has gotten well underway this week. Prospects are good for a fine yield this year. More than 100 bales are being ginned every day at Hamlin.

Ernest Bergire, who holds a government job at Amarillo, is spending the week with his family in the Dovic community.

W. N. Temple, accompanied by his son, Earl Temple, returned from Lamesa, where he has been spending the past month. Eleanor Temple accompanied her brother to Lamesa, where she will be a guest in his home.

Mrs. Ross Fomby was honored with a surprise birthday supper given by the Strauss Dry Goods Company Friday evening at the Smith Park on the Brazos River north of town. Enjoying the get-together were Mr. and Mrs. Ross Fomby, Mr. and Mrs. Clyde Huff, Mr. and Mrs. H. M. Hopper, Mrs. Carl Greenway, Elva Greenway, Pat Albritton, Kurt Schoeman, S. D. McMahon and Arlie Cassie.

TEN YEARS AGO

Among items of interest in the Hamlin area 10 years ago were the following, taken from the issue of The Hamlin Herald dated September 19, 1947:

William Patterson, son of Mrs. W. D. Patterson of Hamlin, died at Borger Monday from burns sustained August 30 at the Goodrich Rubber Company plant there. The 22-year-old man formerly lived at Hamlin.

Members of the Hamlin Future Farmers of America made a good showing last week at the West Texas Fair at Abilene with their livestock.

Three sisters, Mrs. G. B. Howington of Hamlin, Mrs. Lawrence Kurtz of Pelly and Mrs. F. F. Sneider of League City, met in the home of the Hamlin woman this week in the first reunion of the trio in 45 years.

Members of the Hamlin Rotary and Lions Clubs will play tonight in softball game, with proceeds going to the hospital.

Harry Carmichael this week announces the purchase of the Hamlin Steam Laundry from Mr. and Mrs. Clyde Huff.

FIVE YEARS AGO

Local happenings in the Hamlin territory five years ago included the following condensed from the issue of The Hamlin Herald dated September 19, 1952:

X-ray tests for tuberculosis will be taken two days next week in Hamlin by a mobile unit of the Texas Department of Health. No charge will be made for the tests.

David O. Butler and James I. Griffin, Hamlin young men, are completing basic training in the Army Air Force at Lackland Air Force Base at San Antonio.

A freak twister of wind did several thousand dollars in damage last Wednesday during the rain-storm at the Western Compress & Storage Company in Northeast Hamlin, according to R. C. McCurdy, manager.

An Amarillo firm was awarded the contract for supplying and installing the water pipeline from Stamford to Hamlin. Work is expected to get underway on the project shortly after the first of the year, with completion date set for May 1, according to Mayor Mac Brundage. The Amarillo bid was for \$389,405.

ONE YEAR AGO

Of interest in the Hamlin community a year ago were the news briefs below, reprinted from the issue of The Hamlin Herald dated September 20, 1956:

Oil production from a Swastika shale well is being proved this week in the Sunray-Mid Continent Oil Company's No. 1 Harriet Hill test just north of the Midwest Cooperative Oil Mill.

Fiftieth anniversary rites are being set by members of the First Methodist Church for October 14, it is announced by the pastor, Rev. Darris L. Egger.

TEXANS IN WASHINGTON

By Tex Easley, AP Washington Correspondent

Washington—Ever since coming to Congress in 1937 Senate Democratic Leader Lyndon Johnson has pushed for water conservation through the harnessing of streams to control floods and store up water for use in times of drought.

Coming to the House from the Austin district, Johnson worked for flood control and power dams. Lake Buchanan and Marshall Ford dams were built with funds he helped obtain soon after taking office.

Some time ago he asked the Department of Interior to make a long range study of water utilization possibilities, in the way of reclamation projects, throughout Texas. Now about two-thirds finished, the detailed report of the Reclamation Bureau is due in about two years.

In recent months he has repeatedly told the Senate that more flood control water storage pro-

jects are needed not only in Texas but elsewhere in the nation.

He points out that at less than \$17,000,000,000 has been spent on such improvements by the federal government since 1776, while almost that much has been raised for foreign aid in the last 12 years.

"Our investments in water development projects have not been large enough," he says. "We are going to have to do more."

In his latest move he sent a memorandum to Major General E. C. Itschner, chief of the Corps of Army Engineers, and to William A. Dexheimer, Reclamation Bureau commissioner. Subject: Intergrated federal water program in Texas.

He told them Texas must have a "predefined, realistic federal water program" giving the state maximum benefits and assuring the federal government maximum return on its investment. He noted that Texas has suffered drought damage estimated at \$2,700,000,000 in the past decade, and that flood losses earlier this year amounted to \$105,000,000.

"Water supply is the controlling key in the future of Texas," he continued. "Unless effective action is taken immediately, Texas will literally run out of water in 10 to 15 years. The water problem is the only limiting factor on the continued growth and economic expansion of Texas."

Then in language which government agency heads might interpret as a virtual command, coming from a lawmaker who has much say-so over appropriations of money with which they operate, Johnson added:

"I urgently request that the Corps of Engineers and the Bureau of Reclamation, working together, devise and submit to me, not later than April 30, 1958, a 'mock up' (outline) of a Texas state-wide water program where federal funds are involved with an initial division of responsibilities as between your two agencies."

"This is to be a coordinated Corps-Reclamation program, particularly where water supply is involved in an integrated, inter-basin activity."

Johnson estimated the "probable total cost" of such a federal water supply program in Texas over the next 25 to 30 years as approximately \$1,300,000,000.

He stated that in order to qualify, the livestock sold must be replaced with livestock of a like kind used for the same purpose. For example, dairy cows sold must be replaced with dairy cows. He noted that the period for replacement may be extended beyond the end of the year following the year of sale upon application and showing of reasonable cause to the internal revenue service district director's office.

Slight Drop Recorded In Attendance Totals At Sunday Schools

Attendance totals at Hamlin Sunday Schools showed a slight drop from the previous week, but a gain over the year ago figure, according to tabulations made by The Herald of reports from 12 of the 13 churches of the city.

Figures for September 15, September 8 and a year ago, by churches, follows:

	Sept. Sept. Year
15 8 1961	15 8 1960
Mexican Baptist..... 38 43	38 43
Ch. of Nazarene..... 90 90	90 90
First Methodist..... 209 225	209 225
Foursquare Gospel..... 66 51	66 51
Faith Methodist..... 46 54	46 54
Sunset Baptist..... 56 63	56 63
Church of Christ..... 146 152	146 152
Calvary Baptist..... 58 59	58 59
United Pentecostal..... —	—
Assembly of God..... 47 41	47 41
Ok Gr. Col. Baptist..... 67 66	67 66
First Baptist..... 405 368	405 368
No. Cen. Baptist..... 79 91	79 91
Totals..... 1301 1321 1264	1301 1321 1264

PARTY TO THE IDEA.

The meek little man called on a psychiatrist and explained that his wife thought she was a chicken.

"Good heavens, man, how long has this condition existed?" asked the doctor.

"Oh, about a year," was the reply.

"Why have you waited so long to come to see me? These cases can be serious."

"Well," explained the little man, "I would have come sooner, doctor, but you see, we need the eggs."

Twilight Is Dangerous Time of Traffic Day

"Twilight time" was immortalized in a once popular song.

But safety men of today would just as soon forget the "twilight time" of 1956—as usual the most dangerous time of day in traffic.

More fatal traffic accidents and more auto mishaps of all kinds occurred from 4:00 to 8:00 p.m. than during any other four hours of the day.

The just published 1957 edition of "Accident Facts," the National Safety Council's statistical yearbook, shows that one-fourth of all traffic deaths and 29 per cent of all auto accidents occurred from 4:00 to 8:00 p.m.

Davy Jones is the popular name of sailors for an evil sea spirit or the devil generally.

Scrap Paper Helped To Build New Church

Funds received from the sale of old newspapers have gone a long way toward building the new Faith Methodist Church, it was noted this week by R. H. Coley, long time Hamlin resident, who has been in charge of the scrap paper drive. He has found joy in the task, he declares, and at the same time feels he has made a major contribution to the local church.

Coley, who calls himself the "Paper Boy," asks that people of the community continue to call 1049-J, 403-W or 741-J when they have scrap paper to donate to the church cause. He will pick it up. Coley and other members of the congregation express thanks to all those who have contributed paper to the drive so far.

FFA Boys Plan to Attend State Fair As Annual Trip

Good attendance featured the first regular meeting Monday night of the Hamlin High School chapter of Future Farmers of America at the high school agriculture building.

Gene Murff, newly elected president of the boys' vocational agriculture organization presided for the session. Other officers are: Jerry Crowley, vice president; Boyce Blankinship, secretary; Arlon Baize, treasurer; Sam Hodges, reporter; Bob Martin, sentinel.

During the meeting Jerry Crowley reported to the group about proceedings at the area FFA convention held last May in Brownfield. Bob Martin reported to the 30 members present on the state FFA convention, which was held in Fort Worth in July.

Other decisions made during the meeting included setting the dues at \$1.10 for the entire year; to make the State Fair at Dallas the annual trip for Ag II, III and IV classes. Murff appointed a committee composed of Bob Martin, Gerald Renfro and Jerry Crowley, to work out details of the fair trip.

Second Monday night of each month was set as the regular meeting date, with 7:00 o'clock as the starting time.

Program committee for the October meeting is composed of Dwight Griggs, Teddy Westmoreland and Carl Weaver.

The Monday meeting was adjourned with the regular closing ceremony, according to Sam Hodges, FFA reporter.

Eastern City Is Safest In Traffic in Country

What's the safest U. S. city? East Haven, Connecticut—so far as accidental death rates go among cities reporting to the National Safety Council.

During 1956 the city had no accidental deaths, according to "Accident Facts," statistical yearbook of the council.

Oshkosh, Wisconsin, was second safest with 2.4 deaths for every 10,000 persons.

The booklet, just off the press, shows that Norwalk, Connecticut, with 78.8, had the highest 1956 accidental death rate.

ANIMAL COLLECTOR—Michael Devine, 14, who recently returned from a Florida vacation is shown with a few of his swamp souvenirs at his home in Dallas. They are a seven-foot snake, a tortoise and an alligator. He also has 14 turtles, an iguana, a salamander, a Western newt, a collared lizard, two cats; two white mice; a black English bulldog; a barn owl, a heron and flocks of ducks, pigeons and chickens. Michael became interested in animals four years ago and has been collecting and reading about them ever since. The Devines who have a large, secluded yard so Michael can enjoy his pets without bothering the neighbors, help the boy with his collection.

Stubble Management Is Good Practice in Soil Conservation

Managing stubble so as to leave it on or near the surface of the soil is one of the best soil conservation measures used by the farmers of the district, report officials of the California Creek Soil Conservation District. Not only does stubble prevent surface crusting, lower soil temperature, reduce wind and water erosion, but it increases the amount and rate water is absorbed into the soil.

A hundred pounds of organic matter holds four times more water than 100 pounds of clay. This year we have been blessed with an abundance of stubble. Some farmers are using rotary cutters on the stubble before they plow; others are using Hoe-matic type plows with sweeps; while others are using one-way plows. No matter what method you use to mix the stubble with the soil, the main thing is to use the stubble. A few farmers of the district have reverted back to one of the most out-dated ways of handling stubble ever conceived—

Reattice L. Boiles Dies of Attack in Hamlin Tuesday

Funeral services for Reattice L. Boiles, 50-year-old employee of Rockwell Lumber Company, were conducted last Thursday afternoon at the Foursquare Gospel Church in Hamlin. Officiating were Rev. Cari Poole, the pastor, and Rev. H. C. Adair, pastor of the Faith Methodist Church.

Boiles died suddenly last Tuesday afternoon at 3:15 o'clock shortly after suffering a heart attack. He had not been ill.

Born February 23, 1907, he was the son of Mr. and Mrs. Hollie Boiles. He married the former Amie Stapler at Truby on January 10, 1926. He was a member of the Methodist Church.

Burial was in the Hamlin North Cemetery under the direction of Hamlin Funeral Home.

Survivors include his wife, Mrs. Amie Boiles of Hamlin; his parents, Mr. and Mrs. Hollie Boiles of Hamlin; four sons, R. L. Boiles Jr. of Andrews, Troy Lee, James R. and Clyde D. Boiles of Hamlin; two daughters, Mrs. Imogene Yates of Fort Worth and Mrs. Helen Spencer of Sweetwater; six brothers, Truman Boiles and Buster Boiles of Midland, Jerry and Hollie B. Boiles of California; Eddie Boiles of Hamlin and Ollie D. Boiles of Breckenridge; five sisters, Mrs. Ottie Crawford and Mrs. Jessie Morton of Abilene, Mrs. Velma Sanders of Midland, and Mrs. Ora Stapler and Lena Inez Boiles of Hamlin; and five grandchildren.

Foreign Counties to Have Exhibits at Fair

Seventeen foreign countries will be represented with exhibits at the 1957 State Fair of Texas at Dallas October 5 through 20.

The fair's colorful international center, larger and more lavish than ever, will house elaborate displays of products and travel attractions by nations from the far corners of the earth.

The countries which will have exhibits include Belgium, China, Egypt, Finland, Germany, Great Britain, Italy, Japan, Korea, Sweden, Switzerland, Venezuela and five nations of the Middle East represented by the Arab Information Center.

Celotex Net Earnings Down from Last Year

Net earnings of the Celotex Corporation in the nine months ended July 31 were \$2,693,431 after all charges and income tax provisions, Henry W. Collins, president, reported this week in a release from Chicago. After preferred dividend requirements of \$192,647, the earnings amounted to \$2.84 a share on 878,651 shares of common stock outstanding at July 31.

In the corresponding nine months a year ago earnings were \$4,565,651, equal to \$4.97 a share on the same number of shares.

Sales were \$49,089,233 as against \$57,546,477 in the like period of 1956.

Constitutional Amendments Would Improve Retirement of State Workers

Voters of Hamlin territory and elsewhere in Texas will be called upon November 5 to make a decision in regard to changes in the retirement program of state employees.

Speaking in behalf of the issue, J. O. Musick, general manager of the Texas Safety Association, said this week, "The amendment, which will be the first one on a ballot of three, is not designed to 'give' the state employee additional retirement income, but is to achieve a more equitable and realistic approach to a program where he can pay for additional security beyond retirement."

Musick listed five outstanding advantages he considered the amendment had to offer:

1. The employee has the opportunity to select the highest salary he has received for five consecutive years of the past 10 as a basis for his retirement scale.

2. The amendment eliminates the inequity and controversy between prior service and contributory service. This is a technical distinction and under the new plan each employee is assured equitable treatment.

3. The amount paid in by lower salaried employees is reduced.

4. Allows a transitory period (10 years) wherein no employee should be deprived of previously accumulated benefits.

5. Reduces the employee's contribution from 5 to 4 1/2 per cent

Windbreak Trees Again Are Available

Hamlin area farmers and ranchers are advised that windbreak trees for farm and municipal planting will be available again this year from the Texas Forest Service, according to Bill Lehman, county agent, and Ray Walker, junior assistant extension agent.

The trees are one-year seedlings and are available in the following species: Austrian pine, Chinese elm, ponderosa pine and red cedar.

Orders must be for 100 or more trees. Orders must be received by March 1, and payment must be remitted with order. These trees are sent prepaid at \$3 per 100.

Anyone with farm land or those in charge of municipal parks can order these trees. Order blanks are available at the county agent's office in Anson.

District P-TA Board Meets Wednesday At Hamlin for Parliamentary Courses

Board of managers of the 18th District of the Texas Congress of Parents and Teachers were meeting in the high school auditorium Wednesday. Luncheon was to be served in the school cafeteria as a courtesy to the board.

Mrs. T. A. Swenson, state representative, was to speak to the group and conduct two parliamentary courses while in the district.

On Tuesday Mrs. Swenson was presented by the Snyder P-TA city

New FHA Officers Installed by Hamlin High School Chapter

Tuesday evening at 7:30 o'clock the new officers of the Hamlin High School chapter of Future Homemakers of America were installed.

Joyce Grimm, district vice president, was a stand-in for last year's president, Elizabeth Norton. Sarah Fomby, the 1957-58 president, took over the duties of her office.

New members received their FHA pins in a formal initiation ceremony, and new yearbooks also were presented. Afterward there was a tea for all FHA members and their mothers.

Officers for 1957-58 are: Sara Fomby, president; Ginger Rabjohn, vice president; Rere Moore, secretary-treasurer; Benita Smith, reporter; Wyvonne Conner, parliamentarian; Lona Seaton, historian; Peggy Dodd, song leader; Rebecca Ferguson, pianist; Libby Johnson, sergeant-at-arms; Billie Dominey, civil defense; Joyce Grimm, district vice president; Mrs. Burt Fomby, chapter mother; Mrs. Simmons and Mrs. Carter, advisors.

Plastics and Other Materials Present New Possibilities in Home Treatment

If your new home does not look different from your neighbor's, then it is your own fault. New treatments of walls, ceilings, windows and floors are now available so that with a little planning your home can become a conversation piece.

Plastic is now at home with elegance, and is offering all the advantages of utilitarian living in a smart atmosphere. Take formica, for instance. It was successful in kitchens as counter tops for long years, but has now moved on throughout the house, including the stair well.

It is being used on walls and may be installed on the job for the first time, applied to concrete, masonite or plaster. Heretofore it had to be molded and cemented to other materials, measured exactly to the space planned for it and the job done in a factory.

One of the most effective treatments is done in inter-random planning with wood grains. Choice of 17 colors may be used in block form as in a nursery. In a new house the material may be put right over half-inch plywood nailed to the studs.

Next meeting of the group will be September 27 at 3:00 o'clock. The program will be on "Gift Suggestions" by the members.

A dramatic foyer treatment

shown recently involves using a vinyl flooring in a bold design of beige and black, and then matching this treatment to a formica door also done in beige, black and cocoa. Walls are in pale birch formica. The plastic travels from the walls right up the stair well, as it may be molded with no seams showing to mar the appearance of the walls.

The effects to be had are limitless in this and other plastics. Custom designs permit silk screen painting on the formica with special ink. The surface remains impervious to scratching and staining and maintains its easy cleanability.

Wood tones and effects present the newest look in home decor. If one does not have true wood paneling, the idea is presented in another way—with wood-toned wall papers, plastic paneling or plastic coated hardboard.

Color schemes that seem to take particularly well to the laminated plastic include one shown in a handsome living room—fruitwood plastic room divided with white, citron and black furnishings and accessories. A kitchen combines bronze-hued cabinets with yellow laminated plastic and white vinyl tile floor. Another combination of colors used in a living room involves a painted brick floor in blue tones from cerulean to larkspur punctuated with strong green.

Pinks and reds are used in a nursery with walls a combination of both in laminated plastic.

Mrs. Jerry LaBaume, Recent Bride, Feted At Gift Tea Saturday

Mrs. Jerry LaBaume, nee Fay Server, daughter of Mr. and Mrs. L. G. Server, was honored at a miscellaneous tea Saturday from 3:00 until 5:00 o'clock in the home of Mrs. Donnie Sanderlin, 250 Northwest Avenue G.

Mrs. Sanderlin greeted guests as they arrived and introduced the honoree; her mother, Mrs. L. G. Server; Mrs. C. E. LaBaume and Mrs. Tony Boone.

Guests were invited into the dining room where refreshments were served. The table, laid with a white Japanese embossed silk cloth, featured an arrangement of zinnias and greenery. Brenda Hargrove and Melba Osborne poured and served the cake.

The gift rooms were decorated in fall flowers. Mmes. Ned Thomas and Leon Hughes and Barbara Butler assisted in displaying the gifts.

Louise Lakey registered guests in the bride's book.

Mrs. W. C. Hargrove said the good-byes.

Dallas' first building was one room log cabin erected in 1841 by William Neely Bryne.

Hamlin B&PW Club To Observe Business Women's Week

Hamlin Business and Professional Women's Club is participating in the observance of National Business Women's Week, September 22 to September 28, according to Mrs. Mary Haught, local president.

The national federation annually sponsors National Business Women's Week to spotlight all women who work. First National Business Women's Week was in 1928 when there were 10,000,000 women who work. Today there are approximately 22,000,000. The theme of 1957 National Business Women's Week is "Salute to Women Who Work."

The national Federation of Business and Professional Women's Clubs, founded in 1919, is the oldest and largest national organization for women who work. There are 3,300 B&PW Clubs in the 48 states, Alaska, Hawaii and the District of Columbia. Membership totals more than 170,000. The federation is the only organization for women which includes all professions and occupations.

As a part of the week's observance the Hamlin B&PW Club will meet for a breakfast Monday morning at 7:00 o'clock at Martin's Drive-In, Mrs. Haught announces.

IMPROVING WITH AGE.

"He's not as big a fool as he used to be."

"Getting wiser?"

"No, thinner."

Odako Group of Camp Fire Girls Elects New Officers

Members of the Odako group of Camp Fire Girls met yesterday at the home of Mrs. E. J. Hawkins and elected officers for the coming year.

Elected were: Lagena Weaver, president; Lou Ann Hawkins, vice president; Sunny Marie Teague, secretary; Betty Jane Robertson, treasurer; Gloria Jenkins, scribe.

Leaders of the group are Mrs. E. J. Hawkins and Mrs. E. J. Croan. The unit consists of nine girls: Lou Ann Hawkins, Mary Ann Hymer, Sandra Jayroe, Betty Jane Robertson, Gloria Jenkins, Mary Debs Rountree, Margaret Maberry, Lagena Weaver and Sunny Teague. They are all working on their Firemaker rank.

The national Federation of Business and Professional Women's Clubs, founded in 1919, is the oldest and largest national organization for women who work. There are 3,300 B&PW Clubs in the 48 states, Alaska, Hawaii and the District of Columbia. Membership totals more than 170,000. The federation is the only organization for women which includes all professions and occupations.

As a part of the week's observance the Hamlin B&PW Club will meet for a breakfast Monday morning at 7:00 o'clock at Martin's Drive-In, Mrs. Haught announces.

The hostesses, Lou Bishop and Rebecca Brown, served punch and cookies to the following members present: Mmes. Inez McCoy, Viva Joiner, Mildred Weaver, Charlene Joiner, Sydonia Lain, Garn, Adele Kelly, Arlene Faulkenberry, Vernon Hodges and Davis of Stamford.

Hamlin Garden Club opened the new club year's work with a tea in the home of Mrs. Arlie Cassle. Assisting the hostess were members of the social committee.

An arrangement of chrysanthemums in shades of yellow and bronze decorated the tea table.

Appointments were in crystal and silver. Mrs. M. T. York poured punch. Cakes were served by Mrs. L. E. Prewit and Mrs. C. R. Lovell.

Mrs. Clyde Grice presented the yearbook and stressed the theme of the year's work, "Joys of Gardening."

The president, Mrs. Edgar Duncan, gave her address on "Joys of Things to Come."

Mrs. LaFoy Patterson talked on "Building Better Soil."

Go to The Herald for pen refills.

Goodman Club Unit Wins \$75 Prize at Fair

Goodman Home Demonstration Club of Jones County won second place and a \$75 cash prize on a civil defense exhibit at the West Texas Fair last week at Abilene. Three other county Home Demonstration Clubs entered booths and were awarded \$15.

The Friendship Club of Hamlin also had a booth on civil defense; the Tuxedo club had one on making picture frames; and the Stith club had an exhibit on early American furniture.

Garden Club Begins Year with Tea in Arlie Cassle Home

Beta Theta Chapter Begins Year with Happiness Program

Mrs. Ed Boaz introduced the program for the year, "Happiness," when members of the Beta Theta chapter of Beta Sigma Phi Sorority held their first meeting of the new year in the home of Mrs. Earl Smith, president.

Mrs. Boaz brought the first program, "Definition of Happiness." In connection with this topic she reviewed in part "The Art of Living" by Dr. Norman Vincent Peale.

Mrs. Smith conducted the business meeting. Names of all committees were read and work for the year was outlined.

Next meeting of the group will be in the home of Mrs. Boaz on September 24, it was announced.

REAL AFFECTION.

"Does your husband ever take your little hand in his?"

"Yes, and twists it until I drop the flatiron."

State Capitol NEWS

By Vern Sanford, Manager,

Texas Press Association.

Austin.—For the seventy-second time in Texas, the Legislature will convene in special session October 14.

Throughout the summer there was lively debate as to whether such a step should be taken. Governor Price Daniel put an end to speculation by setting the date. Purpose: To enact laws in regard to lobby control, representation before state agencies, crime study and water development.

Calling special sessions has been more the custom of Texas governors than not. Of the 71 previously called since Texas became a state, 41 have fallen in the 46-year period since 1911—almost one a year.

Almost all of Governor Daniel's predecessors in the past 30 years have called lawmakers back at least once. (Exceptions: Beauford Jester and W. Lee O'Daniel). Governor Dan Moody holds the record for keeping the Legislature busy. In 10 months of 1929 and 1930 he called five special sessions.

Runners-up are Governor Miriam Ferguson, who called four in 1933 and 1934; and Governor Ross Sterling, who called four in 1931 and 1932. Governor James V. Allred called three in 1935-36, and two more in 1936 and 1937.

In those days a legislator had to keep his bag packed.

What were the issues that kept the lawmakers so busy in those days? Mostly the same ones they are working on today.

In the day of Governor Moody's five calls, regular sessions were only 60 days, so a lot of routine business overflowed. But he also called their attention to special problems. Many sound familiar—improvement of the prison system "along modern and scientific lines," regulation of securities sales, investigation of charges against a state official. At one time Governor Moody vetoed all the bills and told the Legislature to try again—with the budget.

Governor Sterling asked legislators to enact a program to conserve natural resources, particularly oil and gas, and to help farmers hard hit by sagging cotton prices. Sterling also had a states rights vs. federal courts problem in that the U. S. Supreme Court had negated Texas' oil production laws.

Mrs. Ferguson had to call lawmakers back again and again to wrestle with the "hard times" of the thirties. Relief bonds to help the unemployed and destitute were passed. In one of her calls Mrs. Ferguson, with an eye for housewifely problems, called on lawmakers "to make needed appropriation for refrigeration in the governor's mansion."

Governor Allred's special sessions dealt with some of the most stirring issues of the thirties. He asked for liquor selling regulations following the repeal of prohibition and for a law banning pari-mutuel betting at race tracks. He also asked for money for old age pensions (\$15 a month in those days) and for more taxes to get the general revenue fund out of the red.

In most cases, the governors got the laws they wanted passed—sometimes by calling one session on the end of the other, sometimes in a session as short as nine days.

Water Program Okayed.—In one area—water development—legislators have their work cut out for them.

A 150-member state-wide water

committee approved a three-point program proposed by the governor. It calls for:

- Appropriating \$1,024,000 to set up a planning division under the State Water Board.
- Laws enabling the state to contract for water storage space in federal reservoirs.
- An all-out push to rally support for passage of the \$200,000 water bond amendment to be voted on November 5. Harry Provence, Waco editor, is chairman of the campaign committee. Lon C. Hill, Corpus Christi businessman, is co-chairman.

Window Jumping Deferred.—Several people in Austin have suggested forming an "I'm bored with Ben Jack" Club.

Their attitude stems from Promoter Ben Jack Cage's refusal to testify about his part in ICT affairs during his appearances in Austin. During his flamboyant return to Texas several weeks ago Cage promised to tell things about the bankrupt company's affairs that "would have people jumping out of windows."

Cage stayed only 10 minutes when he appeared before the Travis County grand jury. When called by the House investigating committee he invoked the Texas brand of the fifth amendment and refused to testify.

If sensational information is to be revealed, it apparently will not come until Cage comes to trial in Dallas on charges of embezzling ICT funds.

Officers Hits Traffic Laws.—Texas is behind other states in traffic regulations and ahead on traffic accidents, says a Texas safety official.

C. G. Conner, assistant chief of the Texas Highway Patrol said Texas has one of the highest death tolls in the nation. It's as much as three times as safe to drive in some other states where more up-to-date laws are being enforced, he said.

Texas had 250,000 accidents last year, Conner reported. He suggested more driver education courses for teenagers, more traffic courts, more arresting of drunk drivers.

Officer Licensing Proposed.—Serving as a peace officer should be a profession, like law, medicine and teaching, says Attorney General Will Wilson.

Wilson suggested a state licensing program whereby would-be peace officers would have to meet certain requirements.

New Tablet Relieves 'Hot Flashes' Irritation From Change-Of-Life Without Costly Shots!"

"Shots I took gave me relief," says W. W. Chicago. "But with Pinkham's Tablets—no hot flashes—no 'sorries for myself' spells!"

Model Photo Science offers women new freedom from much misery of change-of-life, thanks to an amazing tablet developed especially to relieve such functional discomforts. Doctors report sensational results using this tablet in treatment alone—and no costly injections!

Relief for 8 out of 10 tested! Irritability was calmed. Dizziness relieved. Hot flashes subsided. Here's why. This new tablet is a unique combination of special medicated acts directed on the causes of these troubles to relieve tense feelings, physical distress that bring unhappiness to so many. Clinical tests prove this.

Don't let change-of-life rob you of joy! Ask for Lydia Pinkham's "Tabs," made at drugstores without prescription. Contains blood-building iron. (Also Lydia E. Pinkham's Vegetable Compound.)

A 150-member state-wide water

KERRY DRAKE

It would be slow getting established, said Wilson, but would raise standards and emphasize the importance of the officer's work.

Cotton Crop Up.—Good farming plus early spring rains are paying off for Texas cotton growers. U. S. Department of Agriculture predicts the state's 1957 crop will be well above average—4,050,000 bales. Average for 1946-1955 is 3,742,000.

If the crop comes out as expected it will mean yield-pre-acre has almost doubled in the past few years. Texans put only about half as much acreage in cotton this year as in previous years when crops of similar volume were harvested.

Cynics originally referred to a school of philosophers founded by one of Socrates' pupils.

Short Snorts.—State Health Department reports 71.8 per cent of all Texans under 20 have received one or more polio shots. About 20 per cent have had three inoculations.

Durwood Manford, Smiley chicken farmer and one-time speaker of the Texas House, will take office as a member of the Industrial Accident Board within the next month. He was appointed by Governor Daniel to succeed Buddy Jungmich of Austin.

Texas is second in the nation in ownership of airplanes. Texas total, 5,268; California's, 7,420.

Purpose of the demonstration was to teach the nutritional importance of citrus fruit in the diet; point out things to consider when selecting or buying citrus fruit; show preparation and serving of some citrus fruits for breakfast; and to plan a breakfast

Club Demonstrators Attend Training Meet On Fruit Breakfasts

Fourteen attended the leader training meeting on "Breakfast Emphasizing Citrus Fruits," conducted by Mary Y. Newberry, home demonstration agent. The meeting was held in the agent's office last Friday.

Purpose of the demonstration was to teach the nutritional importance of citrus fruit in the diet; point out things to consider when selecting or buying citrus fruit; show preparation and serving of some citrus fruits for breakfast; and to plan a breakfast

menu and adjust to meet family needs.

The food leaders will give this demonstration in their own clubs. Those attending the meeting were Mrs. N. I. Williams, Mrs. J. E. Hudson, Mrs. Mack Doty, Mrs. Roy Williams, Mrs. Cal McAninch, Mrs. Iris Treadwell, Mrs. C. H. Watts, Mrs. Gean Witt, Mrs. M. S. Johnson, Mrs. Toff Herndon, Mrs. George Pearce and Mrs. C. G. Glazner.

JUSTIFIED ACTION.

Lillian—"I quit because my boss used a couple of offensive words."

Marie—"Is that so? What did he say?"

Lillian—"You're fired!"

Pied Pipers Go to Merkel for Third Grid Game of Season

Big Delegation of Fans Slated to Go In Game Caravan

First out-of-town football game of the Hamlin High School Pied Pipers is on tap for Friday night at 7:30 at Merkel. It will be the third of non-conference games on the schedule of the Pipers.

With a victory and a tie hanging to their belts, the Pied Pipers take on the Class A Merkel Badgers with "blood in their eye," bent on improving their season record. They won their first tilt from Roby, and managed only to tie the Spur Bulldogs Friday night with a 7 to 7 score.

Coach Neil Laminack, who last Friday night scouted the Cross Plains-Merkel game at Merkel, declares the Badgers look plenty rough and ready. Formerly in the conference loop with Hamlin, the Badgers have been reclassified in Class A competition.

Head Coach D. C. Andrews says he has been working hard with his charges this week to "get some bugs" out of some of their plays that showed up in the Spur tilt. No major injuries will hamper the boys. He plans to use about the same starting line-up in the Merkel game he has used in the two previous tilts.

A big delegation of boosters will follow the Pied Pipers to the Merkel meet. Fans will meet Friday evening at 6:00 in front of the high school building, where the cars will be decorated with the school colors by high school girls. Then the cars will go in a caravan to the game. Hamlin Pied Piper Booster Club is sponsoring the caravan.

DISTRICT 4-AA STANDINGS

Football ratings began to take shape this week after five of the six District 4-AA teams had reeled off two games each. Rotan was idle over the week-end.

The standings, after last week's games, looked like this:

Team	P.	W.	L.	T.	Pet.
Stamford	2	2	0	1	1,000
Seymour	2	2	0	0	1,000
Hamlin	2	1	0	1	.750
Anson	2	1	1	0	.500
Haskell	2	1	1	0	.500
Rotan	1	0	1	0	0,000

Results Last Week.

Hamlin 7, Spur 7.

Stamford 8, Ballinger 0.

Anson 19, Winters 0.

Seymour 53, Munday 0.

Olney 16, Haskell 14.

Where They Play Friday.

Hamlin at Merkel.

Anson at Spur.

Haskell at Rotan.

Burkburnett at Seymour.

Stamford at Hamlin.

Nine-Game Schedule Faces HHS B Team For Football Season

A nine-game schedule has been announced for the B team of Hamlin High School. Four of the games will be at home and five away from home.

The complete schedule follows:

September 12—Hamlin at Spur.

September 19—Abilene Sophs at Hamlin at 7:30 p. m.

September 26—Anson at Anson.

October 3—Haskell at Haskell.

October 10—Open.

October 17—Rotan at Hamlin at 7:30 p. m.

October 24—Anson at Hamlin at 7:30 p. m.

October 31—Rotan at Rotan.

November 7—Hamlin vs. Abilene Sophs at Fair Park Stadium in Abilene at 4:00 p. m.

November 14—Haskell at Hamlin at 7:30 p. m.

Corn acreage in the United States exceeds that of wheat, oats, barley, rye and rice combined.

BRING ME your old kitchen utensils and clothes; will pay nominal amount for same.—Tom Mason, p

HELP WANTED—Can you use extra money? Help meet those monthly payments; make \$35 to \$50 a week in spare time supplying consumers in Hamlin or Fisher County with Rawleight products. See R. A. Greenwood, Rochester, immediately or write Rawleight, Dept. TW-791-312, Memphis, Tennessee. 21-tf

PEAT MOSS, bone meal, copperas, lawn fertilizers and grub poison conserve your water. Fertilize now. Spreaders available.—F. B. Moore Grain Company, Feed Department, phone 168. 21-tf

IT'S EASY to see why Ford is first in sales when you look at the way-ahead values in the '57 Ford. Each of Ford's 21 models is styled to stay in style. Interiors have space aplenty for six lanky adults. A new "Inner Ford" gives a ride that's sweet, smooth and gentle. And a choice of five modern engines—four V-8's and a Six—provides power to suit your needs. Why not come in and see for yourself? You'll find all this value and more, when you Action Test a '57 Ford. Do it today!

Business Services

MATTRESSES REBUILT the layer-built way; cotton or inner-spring. If it's layer-built it's guaranteed.—Abilene Bedding Company. Call Branscum Upholstery Shop, 435, for information. 27-tf

FOR YOUR fall planting needs we have Early Triumph wheat, Nortex oats, rye, barley, Austrian winter peas, vetch, Mustang oats and a limited amount of certified Crockett wheat.

For your fertilizer needs we have spreaders for farm and for lawns; use 16-20-10, 10-20-10 and 0-45-0 superphosphate. Now is the time for applying fertilizer and copperas to your lawns.—Pied Piper Feed Mills, division of F. B. Moore Grain Company, phone 168, Hamline, Texas. 47-tf

GROSS receipts at the second football game Friday night, between Hamlin and Spur, totaled \$11,285.00, reports Superintendent of Schools C. F. Cook.

Officials cost \$106.40, leaving net receipts for the schools to be divided equally of \$1,022.10. In addition to the \$511.05 share of gate receipts, Hamlin received \$95 for reserved seat sales.

YOU SAVED and slaved for wall-to-wall carpet. Clean it with Blue Lustre.—R. Y. Barrow Furniture Company. 1c

CARD OF THANKS

For the loving help and sympathy shown us by so many friends at our time of grief, we would like to express our gratitude. We were indeed comforted by your kindnesses in the loss of our husband and father.—Mrs. R. L. Boiles and Children. 32

APPLIED PSYCHOLOGY

"I have a wonderful idea for increasing trade," the junior manager of a millinery firm confided to his partner. "I have arranged to have a scale put in front of the store so women can weigh themselves free."

"How's that going to sell hats?" asked the senior partner.

"Well, the scale will register about five pounds higher than it should. When a woman sees that reading, right away she's going to want something to cheer her up. And there, before her eyes, is a window full of beautiful hats!"

District 4-AA Teams Win Three, Tie One and Lose One in Week-End Games

Teams of District 4-AA did not improve their winning records last week-end much, winning three, losing one and tying one game. Another member of the loop, Rotan, had an open date.

Seymour Panthers looked good to take Munday's measure by a thumping 53 to 0 decision. Anson Tigers, who had lost their first game, rolled up a 19 to 0 victory over the Winters Blitzards. And Stamford kept its slate clean by an 8 to 0 win over the Ballinger Beartcats. Hamlin tied Spur and Haskell lost a 16 to 14 tilt to Olney.

Taking advantage of Munday fumbles at every turn, the Seymour Panthers snowed under the Moguls with a 50 to 0 score in a melee played at Munday Friday night. Scoring for the Panthers were Billy Ryan two, Eddie Syntak, R. L. McClung, Larry Martin, Tommy Morris and Chuck Harris. The final Seymour touchdown was the result of a Munday fumble on the goal line which three Panthers covered.

After trailing for most of the tilt 7 to 0, the Hamlin boys tallied a touchdown and extra point in the final minute of play to get out of the loss column. Spur scored first five minutes after the starting whistle. Taking the opening kick-out on the 20-yard spot and advancing to the 30-yard stripe before being downed, the Bulldogs drove for the 70 yards and a score in straight power plays and passes. Kenneth Gilcrease went over the double stripe on an off-tackle play for the touchdown, and Randall Gilcrease added the extra point with a nice boot.

Balance of the first period and the next two quarters were scoreless as the heavies and the Pipers exchanged power plays and forward passes that bogged down before the goal line was reached. Then in the final minute of the thrill packed game, Quarterback Bill Murff tossed a pass to Right End Charles Jenkins that was good for 48 yards. Jenkins being downed just one foot short of pay dirt. Murff then went over on a quarterback sneak on the next play to make the count 7 to 6. Hamlin fans were on their feet as Lanier Foster converted the extra point to tie up the old ball game.

Spur rolled up 16 first downs to 10 for Hamlin, and made 173 yards rushing to 107 for the Pipers. The Pipers made 42 yards in completing two of five passes, while the Bulldogs completed two of eight passes for 30 yards.

In its earlier years Detroit was proclaimed as the "Constantinople of the Western World." What discontent we have heard comes from people who do not understand how the cost of administering modern wildlife management affairs has kept pace with the upward spiral of everything else."

Many Licenses Are Being Issued in State

Increasing numbers of Hamlin area hunters and fishermen have been issued licenses, it is announced.

Hunting and fishing license business in Texas this year has been the biggest in the history of the Game and Fish Commission. This comes from the chief clerk, who for the past two weeks has been filling re-orders from practically every area in the state.

Receipts at Spur Tilt Total Over \$1,000

FOR YOUR fall planting needs we have Early Triumph wheat, Nortex oats, rye, barley, Austrian winter peas, vetch, Mustang oats and a limited amount of certified Crockett wheat.

Trade Moderately Active as Livestock Prices Sag Little from Corn Belt Sales

Trade was moderately active on most classes of cattle and calves at Fort Worth Monday, declares Ted Gouldy, special market reporter for The Herald, in his weekly release to The Herald. The release continues: Slaughter steer prices were slow and steady to weaker, and there was some weakness reflected in the fleshy feeder cattle in sympathy with recent bearish trade on finished beefs.

Comparative prices included: Good and choice slaughter steers and yearlings brought \$20 to \$23; medium and lower grades, \$13 to \$19; fat cows, \$12.50 to \$14.50; cappers and cutters, \$8 to \$12.50; bulls, \$11 to \$15.50; good and choice slaughter calves, \$18.50 to \$22; cull, common and medium, \$11 to \$18; stocker steer calves, \$24.50 down; stocker steer yearlings, \$21 down.

Choice butcher hogs topped at \$20 and \$20.25 at Fort Worth Monday, or 50 cents to \$1 under levels late last week. Most Corn Belt terminals were reporting top hogs around \$19.50 and \$19.75 Monday, and the break in swine prices was credited to heavier movement to market in the Midwest.

Offerings of new crop butcher hogs at the 12 major markets was 14,000 larger than a week earlier.

Medium to good butchers drew \$16.50 to \$19.50. Packing sows sold from \$18.50 downward.

A very small offering of sheep and lambs arrived at Fort Worth Monday, and prices were steady, quality considered. Good to low choice lambs topped at \$20 to \$21, and cull to medium lambs were sold from \$13 to \$19. Stocker and feeder lambs cashed at \$15 to \$20.

Slaughter ewes drew \$6.50 to \$8. Old wethers sold from \$13.50 down. Medium grade yearlings with No. 2 pelts sold at \$16.

A total of 770 Hereford stocker and feeder calves and yearlings sold in the special show and sale at Fort Worth September 13 for a gross of \$82,780.43, and an average of \$107.51 per head.

Most of the good and choice steer calves ranged from \$22 to

Rotary District Governor Speaks To Hamlin Group

District Governor Truett Walton of District 579 of Rotary International was the honored speaker at last Wednesday's regular weekly luncheon meeting of Hamlin Rotary Club. He was accompanied by President E. A. Reiff of Hardin-Simmons University at Abilene, of which Walton is vice president. The session, at the oil mill guest house, was featured by a 100 per cent attendance of active members.

Walton complimented the Hamlin club for its interest in Rotary through the years and hailed the club's thirtieth anniversary meeting scheduled soon.

"A club's spirit and enthusiasm come from within — Rotary exists in the hearts and minds of men," declared the governor as he paid tribute to the 100 per cent record of the club.

Most of Walton's address was taken up with a talk on "Glimpses and Glances of Our Overseas Friends" as he gave highlights of his recent trip to the Rotary International convention at Lucerne, Switzerland.

Switzerland, he said, was refreshingly different where the sturdy young people especially caught his admiration with their bright, cheerful dispositions and clear-eyed outlook on life. The oldest democracy in the world, Switzerland, he said, has no delinquent problem. This situation is due to five basic rules, Walton declared: Discipline, chaperoned mingling of the sexes, taboo on all sexual literature, everybody working and compulsory education.

The governor recounted highlights of visits to Italy, France, Germany and England.

Bill Muff, high school senior, was recognized as the Junior Rotarian for the day.

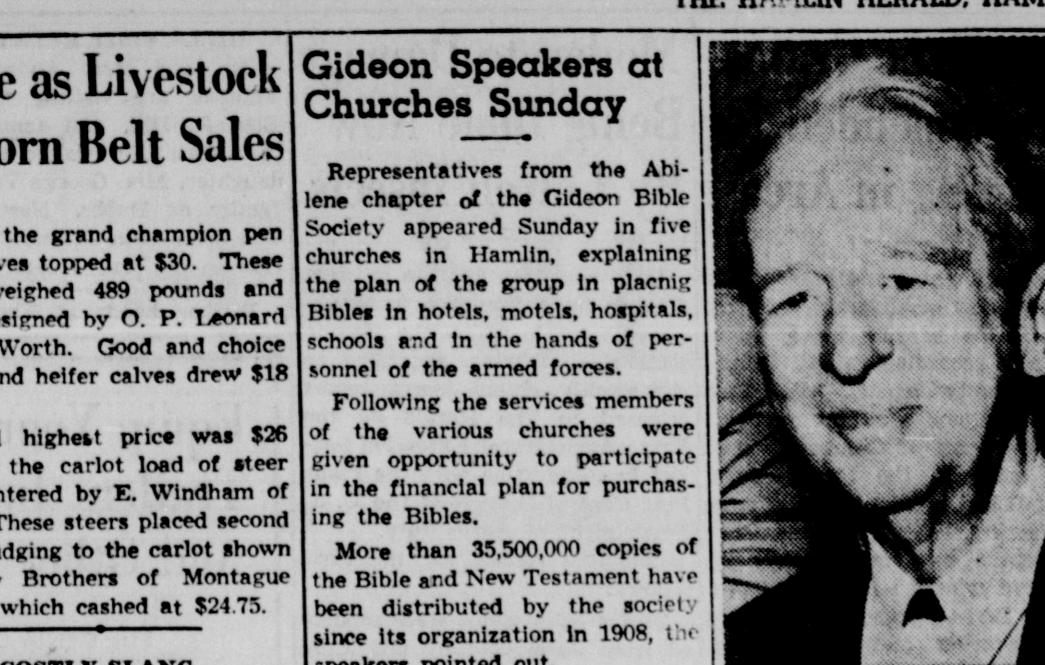

Besides the H-SU officials other guests at the Wednesday luncheon included W. M. Blackburn of Stamford and two Dallas men who left before their names could be ascertained.

Gideon Speakers at Churches Sunday

Representatives from the Abilene chapter of the Gideon Bible Society appeared Sunday in five churches in Hamlin, explaining the plan of the group in placing Bibles in hotels, motels, hospitals, schools and in the hands of personnel of the armed forces.

Following the services members of the various churches were given opportunity to participate in the financial plan for purchasing the Bibles.

More than 35,500,000 copies of the Bible and New Testament have been distributed by the society since its organization in 1908, the speakers pointed out.

COSTLY SLANG.

"Do Englishmen understand American slang?"
"Some of them do. Why?"
"My daughter is to be married in London, and the earl has cabled me to come across."

COLORFUL YARN.

"Did you hear the story about the peacock?"
"No."
"It's a beautiful tale."

ORDERS INTEGRATION—

Federal Judge William Atwell of Dallas ordered Dallas public schools to start integration at mid-term, after the Christmas holidays.

Other Young People Leaving for College

Ed Frank Bayouth left over the week-end for Waco, where he is doing graduate work in chemistry at Baylor University. He has completed his pre-medical work and is awaiting entrance into a medical school.

Melvin Harnes is attending McMurry College, and not Abilene Christian College as reported in last week's Herald. Also Jackie Drummond is a student at Texas A. & M. College. He finished John Tarleton State College at Stephenville last year.

Jim Lain, who was listed also as a John Tarleton student, is working in Midland.

NATURALLY.

Reader—"So you make up all these jokes yourself?"
Editor—"Yep—out of my head."
Reader—"You must be."

PLANNED REVENGE.

The young fellow had had a tough time in the Army. He wrote his dad:

"Dear Pa: If you want me to come back to the farm when Uncle Sam says he doesn't need me any more—here's what you'd better do: Buy two of the meanest mules you can find. Name one of them Corporal and the other Sergeant. I'll be glad to spend the rest of my days telling them exactly what I think of them. John."

First education of women in the United States was in the "Dames Schools" where they were taught to read and sew but not always to write.

Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway System for the week ending September 14, 1957, were 21,559 compared with 25,913 for the same week in 1956, reflecting a sizeable decline from the year ago total. Cars received from connections totaled 11,344 compared with 12,626 for the same week in 1956.

Total cars moved were 33,303 compared with 38,539 for the same week in 1956. Santa Fe handled a total of 30,337 cars in the preceding week this year.

facts of life (economic)

A community such as ours is built . . . and maintained . . . and prospered . . . by the trading that goes on within it; not by the dollars which are sent off or carried off to some other community.

Our schools . . . our churches . . . most of our homes and jobs or businesses . . . the number and type of our neighbors . . . the ability of our stores and service establishments to take care of our daily and emergency needs . . . all of these depend upon local trade . . . money spent here at home.

One of the cold facts of (economic) life is . . . that the prosperity and better life which our dollars inevitably help to pay for in the community where they are spent can be far more valuable than the goods or services they buy for us.

But an equally undeniable fact of life is that we do not share in the enjoyment of these more important things paid for by our money . . . except when we spend it at home.

Several New Students and Teacher Among Faces at Elementary School

Several new pupils and one new fourth grade this year with Georgia Moore and Mrs. F. F. Shout. Teacher can be found among the folks up at Hamlin Elementary School, according to Odean Murphree, principal. Total of 168 pupils had been enrolled through last week.

Ethel Allen, who taught the first grade last year, is teaching

Broom Sales to Be Center of Fight Within Lions Club

New enthusiasm was added to the forthcoming annual caravan for the blind, in which brooms, mops and other articles made by the blind and people with deficient eyesight are sold by members of the club, when Stanley Carmichael, one of the team captains, issued vindictives, threats and other challenges to his opponent, Ted Russell, at the Tuesday noon luncheon meeting of Hamlin Lions Club at the oil mill guest house.

The spirited sale will be conducted Wednesday, October 9, by members of the club. Net proceeds will be used by the local club for work among the people of the Hamlin territory with deficient eyesight.

Scarlet Kidd of Aspermont, who has appeared recently in radio broadcasts and made several recordings, sang three numbers, "Fallen Star," "Goodie, Goodie" and "Old Fashioned Girl," accompanied at the piano by Elva Siburt. Miss Siburt also rendered a piano number, "Kitten on the Keys."

Besides the girls, other guests at the Tuesday luncheon included Ed Roberts and Harry Hale of Abilene and R. E. (Curly) Maynes.

Jones County 4-Hers Win District Honors

District 4-H Club contest winners were announced recently that included some from Jones County, according to Bill Lehmburg, county agent, and Ray Walker, junior assistant agent.

Patsy Wade of Anson won a place in the Texas electric contest; Jimmy Roberts won first in field crops; Delbert Wilson won the Santa Fe contest; and John Mitchell won first in the boys' agricultural program. All three boys are members of the Anson Junior Leaders 4-H Club.

These district winning records have been sent to A. & M. College for state judging. Winners will be announced in October.

New Type Grains Recommended for Planting in Area

Crockett wheat and bronco oats are two new small grain varieties we will be hearing more about this fall, according to Bill Lehmburg, county agent, and Ray Walker, junior assistant agent.

A few acres of Crockett wheat were sown in the Hamlin area last fall and matured a good crop this spring.

Crockett is a new variety of hard red winter wheat developed by the Texas Agricultural Experiment Station and the United States Department of Agriculture.

It is an early maturing variety, has high test weight and produces high yields of grain of approved quality. While not immune to rusts, it has greater disease resistance than most commercial varieties now available.

Crockett is similar to Wichita in general appearance. It is a bearded wheat having white chaff with black stripes similar to other Blackhull type wheats.

It produces a grain of high quality for milling purposes.

Bronco oats was developed from a cross of Lee Victoria and Fulwin. In regional trials throughout the Southern states Bronco produced one of the most outstanding records of any oat variety yet developed.

Although a sister of Mustang, Bronco is different in many respects.

Seedling growth habit is very prostrate during early winter and the variety responds slowly to periods of warm weather. This characteristic probably is responsible for its good survival record, but makes it less desirable for winter pasture. It is tall with large strong straw. The grain is of moderate size and may vary in color from light red to near white, with light gray stripes under some environmental conditions.

Both of these new varieties should be given a test in Jones County to see if they are better than other present varieties, declare the agents.

Two-County Singers To Meet at Stamford

Foursquare Gospel Church in Stamford will be the site Sunday afternoon for the regular Haskell and Jones County singing, it is announced by songfest officials.

Singing will get underway at 2:00 o'clock, and the public is invited to attend.

TRUETT WALTON, district governor of Central West Texas Rotary Clubs and vice president of Hardin-Simmons University at Abilene, was a guest of Hamlin Rotary Club last week.

He may be Vice President Walton, but he'll never be known as anything else but Dean Walton to scores of friends at Hamlin and elsewhere.

In telling of his recent trip to Lucerne, Switzerland, for the annual convention of Rotary International, he declared that the water he crossed on his way to Europe still seemed to be in good shape despite its use for centuries by Columbus and other fellows over the years.

"Old Columbus would marvel at today's modern ships and their equipment. Remember he had no radio, radar, ship showers, swimming pool on deck and no ship paper."

Dean said he suddenly came to realize he was a foreigner when he arrived in Europe, where everybody didn't speak English. He recalled that he had studied Spanish at school—but the convention was in Switzerland, not in Spain.

A noticeable thing about the European cities was that their approaches are not lined with wrecked automobiles and junk yards as are American cities.

DANIEL ON SAM HOUSTON'S PORCH—Governor Price Daniel is shown speaking from the porch of the home where Sam Houston once lived in Huntsville. The speech is regarded by some political pros as his first big for re-election as governor. On the front row are Mrs. Daniel, Buddy Wakefield, Governor Daniel, Judge Amos Gates and Jim Lindsey. Others are unidentified. Daniel set October 14 for a special session of the Legislature to pass laws curbing lobbyists.

Edmund W. Robb To Lead in First Methodist Revival

Pastor Edmund W. Robb will do the preaching in an eight-day series of revival services beginning Sunday evening at the First Methodist Church. The services will continue through the following Sunday evening.

During the week services will be held at 7:00 a. m. and 7:30 p. m., it is announced.

In charge of the musical program will be Rev. and Mrs. Oran Smith of Throckmorton. Smith is pastor of the Throckmorton First Methodist Church.

Rev. Robb has announced his topics for the meeting, beginning with Sunday evening, as follows: "How May I Know I Am a Christian?" "Can Prayer Be Real?" "The Solitude of Sin," "The Ministry of the Holy Spirit," "The Judgment," "The Tabernacle in the Wilderness," "The Prodigal Son," "Why Do the Righteous Suffer?" "The Second Coming of Christ," "The Passover," "The Unpardonable Sin," "The Influence of a Life," "What Is Salvation" and "Fools, Wise or Otherwise."

Members of the men's class of the church will serve coffee and doughnuts each week-day morning from 6:30 until 7:00 o'clock, it is announced. The public is invited.

All members of the Farm Bureau are urged to be present for the election of six new directors and the adoption of the county resolutions, which will go to the state and then on to the American Farm Bureau Federation, declare officials.

Farm Bureau Annual Meeting Set Sept. 30

In a regular monthly meeting last Monday, the directors of the Jones County Farm Bureau made

plans for the annual meeting of the organization, which will be held September 30 at 8:00 p. m. in the Arson High School auditorium.

Pre-registration of ex-students in this territory is being urged by officials in order to avoid congestion on the opening date. Registration of visitors will begin at noon Friday, October 18. That evening the Albany-Hamlin football game will be the feature, and a coffee for attendants will follow at the high school cafeteria.

On Saturday morning a program will be given in the high school auditorium, leaders declare.

Not for a light load fitting shoulders frail.

Not for an unearned victory I sigh;

Strong is the struggle that wins triumph high.

Not without loss the hero shall prevail;

Give me hard tasks, with strength that shall not fail!

★

A FRIEND was telling us the other day that somewhere around Ringgold in North Texas there is a bold wagging nothing behind him. He was one of the losers in a bull-car accident.

Highway patrol reported Alfred B. Clayton Jr. of Dallas had \$150 damage done to his car in the encounter, but neither he nor the bull suffered bodily damage.

The bull did, however, lose his tail in the mishap. That's very little bull, however!

★

AN ANSON MAN and his neighbor were having an argument about their ancestry.

"Sir, I'll have you understand that I'm related to the Boones!" declared one.

"Yes, yes, now I remember—your grandmother's first name was Bab."

★

WE ARE PROUD of lots of our American heritages of today. But we have a lot more characteristics and records that do not recall that pride.

A newspaper paraphraser had this to say recently in commenting on the great American way of life:

A group of islands in the Pacific are reported to have no public debt, no crime and no drunkenness. Steps should be taken at once to carry civilization to these unfortunate people.

Fairview Baptist Church, Southeast of Hamlin, Is County Winner in Contest

Fairview Baptist Church, seven miles southeast of Hamlin, has been named winner of the Town and County Achievement Award sponsored by the Jones County Baptist Association, spokesmen of the denomination said in Dallas first of the week.

The church is now competing with other associational winners in District 17 of the Baptist General Convention of Texas. Both district and associational winners will be recognized at the annual state convention in Fort Worth November 5 through 7, when the first place state award will be made.

Rev. M. E. Randolph is pastor of the Fairview Church, one of

Numerous Cases of Flu Reported in Area

Numerous cases of "flu" have been reported in the Hamlin section in recent days. This trend is typical over most of the country, doctors say.

Numbers of cases of Asian influenza have been reported in several sections of the country, but no cases of that variety have been reported at Hamlin so far, declare local physicians.

Top state award last year went to Pastor Robert Wimpee and the Taylor's Valley Baptist Church in Bell County.

BORN WITH CHOPPERS—Daniel Albert Hernandez, newborn son of Mr. and Mrs. A. R. Hernandez of San Antonio, displays two front teeth he was born with. Daniel is two weeks old.

Another Teacher Added to Faculty In Hamlin Schools

Another new teacher has been added to the faculty of the Hamlin schools, due to increases in enrollment. This makes two additional teachers over last year's faculty list, according to C. F. Cook, superintendent of schools.

In commenting on progress of the school, Superintendent Cook issued the following statement:

The second week of school has passed with a small increase in enrollment. This is a very good sign because so many schools have lost students.

We now have 874 students enrolled in our white schools, with 184 in DePriest Colored School. This is a total of 1,058 school children.

The first grade enrollment is larger than we anticipated, therefore, we employed another teacher. Mrs. Marylee Rosenbaum, Roland, has been added to our daughter of Mr. and Mrs. O. D. first grade faculty. Mrs. Rosenbaum taught last year at Roanoke. She is a graduate of North Texas State College at Denton.

Bus routes have been changed to meet the needs of our children. We appreciate the cooperation of the parents in regard to their help in arranging these routes.

Johnson to Be Feted By Colored Churches

Ballots cast in the Agricultural Stabilization and Conservation Committee election were tabulated by the county tabulation board last week, and the community committeemen elected for each of the four communities are listed below:

Community A—Bryan Agnew, chairman; John R. Brown Jr., vice chairman; Harold Valliant, regular member; J. K. French and W. D. Beauchamp, alternates.

Community B—Joe Benton, chairman; Willie Boedecker, vice chairman; John Ed Youngquist, regular member; L. W. Larson and Harrel McDuff, alternates.

Community C—Arden Beasley, chairman; Clyde Morrow, vice chairman; Franklin Godfrey, regular member; Davie Rister, alternate. The tie for the place of the second alternate in this community will be broken by the casting of lots.

Community D—Walter H. Kelso, chairman; Orvel Hill, vice chairman; Ernest Dixon, regular member; Clyde Jones and Earl Scott, alternates.

The four persons elected as chairmen of the community committees will meet in a county convention at 1:00 p. m. on the date of September 23, 1957, and elect the three regular and two alternate members of the county committee.

Fans with cars are urged to gather in front of the high school at 6:00 o'clock, according to Curly Haynes, Booster Club president, where high school girls will decorate the cars in school colors.

The group will go in the caravan, which will observe speed and safety rules, Haynes says.

Community committees elected and county committeemen to be elected on September 23 will take office on October 1.

Another Scourge of Mosquitoes in Area

Another scourge of late summer mosquitoes has been prevalent in the Hamlin community for several weeks, citizens report.

The mosquitoes are a new type, being smaller and blacker than those that invaded the section after the big rains in April and May. People report that they are so small that they can enter the homes through ordinary screen windows.

Community committees elected and county committeemen to be elected on September 23 will take office on October 1.

TO BE HONORED on their sixth anniversary as ministers at the Oak Grove Colored Baptist Church in Hamlin next week are Rev. and Mrs. J. L. Johnson (above). The services, featuring church groups from surrounding cities, will begin next Thursday and continue through Sunday, according to officials of the congregation. Stable growth of the church has been recorded during the Johnsons' ministry.

Committeemen for ASC Announced

DROUGHT HAS CHANGED FARMING METHODS

Some good things have come of the past few years of drought. Farmers and ranchers of the Hamlin section and elsewhere have learned new lessons in soil and water conservation through terracing, contouring, deep tillage, flattened terraces, leveling and mulching stubble near the surface.

However unless it is done properly, deep tillage may make soil more vulnerable to the relentless gales of the Great Plains. But when drought strips the land of its protective cover, heavy clods of soil turned up to the surface can help to reduce wind erosion.

Deep tillage is most effective and practical on land where a deep sand 12 to 24 inches deep covers a layer of clay, says Jack Barton, extension soil and water conservation specialist. Turning the clay up can help because a rough surface gives the best resistance to wind erosion. Therefore, the more cloddy the soil the greater will be the surface stability.

Speed of tillage proved to be one of the most important factors in obtaining maximum

Seeing Our Bulwarks

The first public showing of the Army's new Nike Hercules anti-aircraft missile will be during the 1957 State Fair of Texas at Dallas October 5 to 20.

The Hercules is the latest air defense weapon which the Army says can fly farther, faster and higher than any other such missile and can carry an atomic warhead.

Also to be exhibited at the fair is the Nike Ajax, which the Hercules will supplement. A full crew of men will go through a realistic drill to demonstrate how the Ajax is loaded onto the rocket launching apparatus, and how it is aimed and fired. The simulated firing demonstration will be accompanied by the sound of recordings of an actual blast-off.

The deadly Nike missile is designed to track down and destroy enemy aircraft. It blasts up higher than its prey and then swoops down on its target.

Red fuming nitric acid is the Nike's fuel, with a booster of solid propellant, something like gun powder that kicks the missile past the speed of sound in two seconds. To show how fast and high the Nike leaps, the booster cuts loose about two and a half seconds after the blast-off, but does not hit the ground until after the missile has already made its kill.

The new Nike Hercules has been demonstrated before selected groups at Fort Bliss but the fair exhibit will be the first one open to the public.

Nike batteries are due to be installed in a wide protective loop around Dallas and Fort Worth to guard these cities against enemy attack. The installations will be in the general vicinity of Mineral Wells, Denton, Terrell and Alvarado, it has been announced. Nike installations are currently being used to protect a number of other areas in the United States.

Editorial of the Week

MOTOR SCOOTER ACCIDENT

The tragic accident here Saturday evening in which young Oliver McDougle of Post and Joyce Bilberry of Wichita Falls were injured when the motor scooter on which they were riding collided with an automobile points up one situation which demands attention now. Whether most parents know it or not, a motor scooter is a motor vehicle under Texas law and youngsters are not legally eligible to drive them until they have qualified for driver licenses. That means they should be 16 years of age.

Oliver is a fine youngster and one of The Dispatch's best paper boys. He is the kind of a boy who industriously and pleasantly earned his own spending money. He was as proud as punch of his motor scooter, just as are other youngsters who own them. But the fact remains that motor scooters are motor vehicles and the law says you must be 16 to drive them.

These irresistible forces alone possess the power to exalt and unify, and have inspired the noblest deeds of valor and sacrifice. How ever difficult the path, everyone will find courage in the knowledge that the beautiful things in life endure for all time.

THE HAMLIN HERALD, HAMLIN, JONES COUNTY, TEXAS

RECALLING Other Years

Being news items taken from old files of Your Home Town Newspaper, The Herald.

TWENTY YEARS AGO.

Goings-on in the Hamlin community 20 years ago are reflected in the following news briefs, reproduced from the issue of The Hamlin Herald dated September 17, 1937:

Many Hamlin young people are leaving this week for college and university enrollments.

One of the many Future Farmers of America chapters has been organized at Hamlin High School. George Dean was elected president.

Cotton picking in the Hamlin region has gotten well underway this week. Prospects are good for a fine yield this year. More than 100 bales are being ginned every day at Hamlin.

Ernest Bergire, who holds a government job at Amarillo, is spending the week with his family in the Bowie community.

W. N. Temple, accompanied by his son, Earl Temple, returned from Lamesa, where he has been spending the past month. Eleanor Temple accompanied her brother to Lamesa, where she will be a guest in his home.

Mrs. Ross Fomby was honored with a surprise birthday supper given by the Strauss Dry Goods Company Friday evening at the Smith Park on the Brazos River north of town. Enjoying the get-together were Mr. and Mrs. Ross Fomby, Mr. and Mrs. Clyde Huff, Mr. and Mrs. H. M. Hopper, Mrs. Carl Greenway, Elva Greenway, Pat Albritton, Kurt Schoeman, S. D. McMahon and Arlie Cassle.

TEN YEARS AGO.

Among items of interest in the Hamlin area 10 years ago were the following, taken from the issue of The Hamlin Herald dated September 19, 1947:

William Patterson, son of Mrs. W. D. Patterson of Hamlin, died at Borger Monday from burns sustained August 30 at the Goodrich Rubber Company plant there. The 22-year-old man formerly lived at Hamlin.

Members of the Hamlin Future Farmers of America made a good showing last week at the West Texas Fair at Abilene with their proposed increase in the weight limit. A legitimate question for citizens, taxpayers and legislators is: "If that sort of highways are to be built, who should pay the added cost?"

That question gets more potent all the time in the light of the multi-billion dollar new federal highway program, and the ever-increasing appropriations the states are called upon to provide for both building and maintaining roads.

The principle involved is not confined to trucks and highways. Large sums must be spent, in the interest of safety, on improving control of the nation's airways. The expended control is made necessary, in large part, by the growth of commercial air travel. It is certainly reasonable to say that the airlines should pay their fair share of the bill.

This is not a matter of penalizing the truckers or the airlines or any other enterprise. It is simply a matter of relieving the general taxpayers of some special costs which have been brought about by the transport agencies in question.

FIVE YEARS AGO.

Local happenings in the Hamlin territory five years ago included the following condensed from the issue of The Hamlin Herald dated September 19, 1952:

X-ray tests for tuberculosis will be taken two days next week in Hamlin by a mobile unit of the Texas Department of Health. No charge will be made for the tests.

David O. Butler and James I. Griffin, Hamlin young men, are completing basic training in the Army Air Force at Lackland Air Force Base at San Antonio.

A freak twister of wind did several thousand dollars in damage last Wednesday during the rain-storm at the Western Compress & Storage Company in Northeast Hamlin, according to R. C. McCurdy, manager.

An Amarillo firm was awarded the contract for supplying and installing the water pipeline from Stamford to Hamlin. Work is expected to get underway on the project shortly after the first of the year, with completion date set for May 1, according to Mayor Mac Brundage. The Amarillo bid was for \$389,405.

ONE YEAR AGO.

Interest in the Hamlin community a year ago were the news briefs below, reprinted from the issue of The Hamlin Herald dated September 20, 1956:

Oil production from a Swastika strata well is being proved this week in the Sunray-Mid Continent Oil Company's No. 1 Harriet Hill test just north of the Midwest Cooperative Oil Mill.

Fiftieth anniversary rites are being set by members of the First Methodist Church for October 14. It is announced by the pastor, Rev. Darris L. Egger.

TEXANS IN WASHINGTON

By Tex Easley, AP Washington Correspondent

Washington—Ever since coming to Congress in 1937 Senate Democratic Leader Lyndon Johnson has pushed for water conservation through the harnessing of streams to control floods and store up water for use in times of drought.

Coming to the House from the Austin district, Johnson worked for flood control and power dams. Lake Buchanan and Marshall Ford dams were built with funds he helped obtain soon after taking office.

Some time ago he asked the Department of Interior to make a long range study of water utilization possibilities, in the way of reclamation projects, throughout Texas. Now about two-thirds finished, the detailed report of the Reclamation Bureau is due in about two years.

In recent months he has repeatedly told the Senate that more flood control water storage proj-

ects are needed not only in Texas but elsewhere in the nation.

He points out that less than

\$17,000,000,000 has been spent on

such improvements by the federal government since 1776, while

almost that much has been raised

for foreign aid in the last 12

years.

"Our investments in water development projects have not been large enough," he says. "We are going to have to do more."

In his latest move he sent a memorandum to Major General E. C. Itscher, chief of the Corps of Army Engineers, and to Wilbur A. Dexheimer, Reclamation Bureau commissioner. Subject:

Integrated federal water program in Texas.

He told them Texas must have a "predefined, realistic federal water program" giving the state maximum benefits and assuring the federal government maximum return on its investment. He noted that Texas has suffered drought damage estimated at \$2,700,000,000 in the past decade, and that flood losses earlier this year amounted to \$106,000,000.

"Water supply is the controlling key in the future of Texas," he continued. "Unless effective action is taken immediately, Texas will literally run out of water in 10 to 15 years. The water problem is the only limiting factor on the continued growth and economic expansion of Texas."

Then in language which government agency heads might interpret as a virtual command, coming from a lawmaker who has much say-so over appropriations of money with which they operate, Johnson added:

"I urgently request that the Corps of Engineers and the Bureau of Reclamation, working together, devise and submit to me, not later than April 30, 1958, a 'mock up' (outline) of a Texas state-wide water program where federal funds are involved with an initial division of responsibilities as between your two agencies."

"This is to be a coordinated Corps-Reclamation program, particularly where water supply is involved in an integrated, inter-basin activity."

Johnson estimated the "probable total cost" of such a federal water supply program in Texas over the next 25 to 30 years as approximately \$1,300,000,000.

Fogle explained that, under a section of the internal revenue code added in 1956, the forced sale of livestock used for draft, breeding or dairy purposes solely on account of drought may be treated as an "involuntary conversion" if the farmer so elects. This means that any profit on the sale will not be subject to income tax provided the sales proceeds are reinvested in the same kind of livestock within one year following the year of sale.

Fogle pointed out that this new provision applies only to livestock sold during the year in excess of

the number that would normally have been sold in the absence of drought. He made it clear that this new rule does not apply to sales of poultry.

He stated that in order to qualify, the livestock sold must be replaced with livestock of a like kind used for the same purpose.

For example, dairy cows sold must be replaced with dairy cows. He noted that the period for replacement may be extended beyond the end of the year following the year of sale upon application and showing of reasonable cause to the internal revenue service district director's office.

Slight Drop Recorded In Attendance Totals At Sunday Schools

Attendance totals at Hamlin Sunday Schools showed a slight drop from the previous week, but a gain over the year ago figure, according to tabulations made by The Herald of reports from 12 of the 13 churches of the city.

Figures for September 15, September 8 and a year ago, by churches, follow:

	Sept.	Sept.	Year
15	8	Apr.	
Mexican Baptist.....	38	43	50
Ch. of Nazarene.....	90	90	79
First Methodist.....	209	225	199

Totals.....	1301	1321	1264

PARTY TO THE IDEA.

The meek little man called on a psychiatrist and explained that his wife thought she was a chick-

en.

"Good heavens, man, how long has this condition existed?" asked the doctor.

"Oh, about a year," was the reply.

"Why have you waited so long to come to see me? These cases can be serious."

"Well," explained the little man, "I would have come sooner, doctor, but you see, we need the eggs."

Twilight Is Dangerous Time of Traffic Day

"Twilight time" was immortalized in a once popular song.

But safety men of today would just as soon forget the "twilight time" of 1956—as usual the most dangerous time of day in traffic.

More fatal traffic accidents and more auto mishaps of all kinds occurred from 4:00 to 8:00 p. m. than during any other four hours of the day.

The just published 1957 edition of "Accident Facts," the National Safety Council's statistical yearbook, shows that one-fourth of all traffic deaths and 29 per cent of all auto accidents occurred from 4:00 to 8:00 p. m.

Davy Jones is the popular name of sailors for an evil sea spirit or the devil generally.

Scrap Paper Helped To Build New Church

Funds received from the sale of old newspapers have gone a long way toward building the new Faith Methodist Church, it was noted this week by R. H. Colley

FFA Boys Plan to Attend State Fair As Annual Trip

Good attendance featured the first regular meeting Monday night of the Hamlin High School chapter of Future Farmers of America at the high school agriculture building.

Gene Murff, newly elected president of the boys' vocational agriculture organization, presided for the session. Other officers are: Jerry Crowley, vice president; Boyce Blankenship, secretary; Arlon Baize, treasurer; Sam Hodges, reporter; Bob Martin, sentinel.

During the meeting Jerry Crowley reported to the group about proceedings at the area FFA convention held last May in Brownfield. Bob Martin reported to the 30 members present on the state FFA convention, which was held in Fort Worth in July.

Other decisions made during the meeting included setting the dues at \$1.10 for the entire year; to make the State Fair at Dallas the annual trip for Ag II, III and IV classes. Murff appointed a committee composed of Bob Martin, Gerald Renfro and Jerry Crowley, to work out details of the fair trip.

Second Monday night of each month was set as the regular meeting date, with 7:00 o'clock as the starting time.

Program committee for the October meeting is composed of Dwight Griggs, Teddy Westmoreland and Carl Weaver.

The Monday meeting was adjourned with the regular closing ceremony, according to Sam Hodges, FFA reporter.

Eastern City Is Safest In Traffic in Country

What's the safest U. S. city? East Haven, Connecticut—so far as accidental death rates go among cities reporting to the National Safety Council.

During 1956 the city had no accidental deaths, according to "Accident Facts," statistical yearbook of the council.

Oshkosh, Wisconsin, was second safest with 2.4 deaths for every 100,000 persons.

The booklet, just off the press, shows that Norwalk, Connecticut, with 78.8, had the highest 1956 accidental death rate.

ANIMAL COLLECTOR—Michael Devine, 14, who recently returned from a Florida vacation is shown with a few of his swamp souvenirs at his home in Dallas. They are a seven-foot snake, a tortoise and an alligator. He also has 14 turtles, an iguana, a salamander, a Western newt, a collared lizard, two cats, two white mice, a black English bulldog, a barn owl, a heron and flocks of ducks, pigeons and chickens. Michael became interested in animals four years ago and has been collecting and reading about them ever since. The Devines who have a large, secluded yard so Michael can enjoy his pets without bothering the neighbors, help the boy with his collection.

Stubble Management Is Good Practice in Soil Conservation

Managing stubble so as to leave it on or near the surface of the soil is one of the best soil conservation measures used by the farmers of the district, report officials of the California Creek Soil Conservation District. Not only does stubble prevent surface crusting, lower soil temperature so bacteria can continue to work, reduce wind and water erosion, but it increases the amount and rate water is absorbed into the soil.

The countries which will have exhibits include Belgium, China, Egypt, Finland, Germany, Great Britain, Italy, Japan, Korea, Sweden, Switzerland, Venezuela and five nations of the Middle East represented by the Arab Information Center.

Reattice L. Boiles Dies of Attack in Hamlin Tuesday

Funeral services for Reattice L. Boiles, 50-year-old employee of Rockwell Lumber Company, were conducted last Thursday afternoon at the Foursquare Gospel Church in Hamlin. Officiating were Rev. Carl Poole, the pastor, and Rev. H. C. Adair, pastor of the Faith Methodist Church.

Boiles died suddenly last Tuesday afternoon at 3:15 o'clock shortly after suffering a heart attack. He had not been ill.

Born February 23, 1907, he was the son of Mr. and Mrs. Hollie Boiles. He married the former Amie Stapler at Truby on January 10, 1926. He was a member of the Methodist Church.

Burial was in the Hamlin North Cemetery under the direction of Hamlin Funeral Home.

Survivors include his wife, Mrs. Amie Boiles of Hamlin; his parents, Mr. and Mrs. Hollie Boiles of Hamlin; four sons, R. L. Boiles Jr. of Andrews, Troy Lee, James R. and Clyde D. Boiles of Hamlin; two daughters, Mrs. Imogene Yates of Fort Worth and Mrs. Helen Spencer of Sweetwater; six brothers, Truman Boiles and Buster Boiles of Midland, Jerry and Hollie B. Boiles of California; Eddie Boiles of Hamlin and Ollie D. Boiles of Breckenridge; five sisters, Mrs. Ottie Crawford and Mrs. Jessie Morton of Abilene, Mrs. Velma Sanders of Midland, and Mrs. Ora Stapler and Lena Inez Boiles of Hamlin; and five grandchildren.

Big Demand for Fish From Farmers May Cut Down Allotments

Many Hamlin area farmers and ranchers will have to be content with limited amounts of young fish for restocking their tanks.

More than 30,000 applications for additional fish from Texas hatcheries were on the books September 1, when time for taking applications for this year's production closed. This figure has been given by the chief engineer of the Game and Fish Commission, in a release to The Herald.

"This year's hatchery production will amount to some 3,000,000 fish distributed to lakes, streams and ponds throughout the state," the chief engineer said.

Production of the hatcheries was curtailed some because of flood damage, principally at the San Angelo hatchery. Repair work at this hatchery has been in progress for some time, and the water supply to the hatchery will be completed in another 30 days. Meantime, bids are being taken now on additional drainage work.

"Heavy rains in the spring filled every farm tank in Texas," the chief engineer said. "Many of these tanks had never been stocked before. We are attempting to supply them with fish as fast as possible."

Celotex Net Earnings Down from Last Year

Net earnings of the Celotex Corporation in the nine months ended July 31 were \$2,693,431 after all charges and income tax provisions, Henry W. Collins, president, reported this week in a release from Chicago. After preferred dividend requirements of \$192,647, the earnings amounted to \$2.84 a share on 878,651 shares of common stock outstanding at July 31.

In the corresponding nine months a year ago earnings were \$4,585,651, equal to \$4.97 a share on the same number of shares.

Sales were \$49,089,233 as against \$57,546,477 in the like period of 1956.

Constitutional Amendments Would Improve Retirement of State Workers

Voters of Hamlin territory and elsewhere in Texas will be called upon November 5 to make a decision in regard to changes in the retirement program of state employees.

Speaking in behalf of the issue, J. O. Musick, general manager of the Texas Safety Association, said this week, "The amendment, which will be the first one on a ballot of three, is not designed to 'give' the state employee additional retirement income, but is to achieve a more equitable and realistic approach to a program whereby he can pay for additional security beyond retirement."

Musick listed five outstanding advantages he considered the amendment had to offer:

1. The employee has the opportunity to select the highest salary he has received for five consecutive years of the past 10 as a basis for his retirement scale.
2. The amendment eliminates the inequity and controversy between prior service and contributory service. This is a technical distinction and under the new plan each employee is assured equitable treatment.
3. The amount paid in by lower salaried employees is reduced.
4. Allows a transitory period (10 years) wherein no employee should be deprived of previously accumulated benefits.
5. Reduces the employee's contribution from 5 to 4 1/2 per cent

and eliminates the \$3,600 ceiling that is imposed by the old plan.

6. The new program, although greatly improved, will not result in additional taxation.

"The amendment will be of particular benefit to the Texas Department of Public Safety," Musick said. "In that it will create a greater incentive for promotion and tenure of service, and will be of aid in recruiting more competent personnel."

Musick explained that he believed an adequate retirement program is one way we can offset the usual low salaries which state employees receive.

Of the other two amendments to be considered on November 5 one deals with an increase in payments to needy, aged persons. The third asks for a decision on whether or not the state should create a Texas Water Development fund for the conservation and development of water resources.

URGING DID IT.

"Come over to help you move your piano."

"Too late—it's already moved."

"You mean you moved that piano up two flights of stairs by yourself?"

"Nope, hitched the cat up to it."

"How could your cat pull that piano?"

"Used a whip."

Windbreak Trees Again Are Available

Hamlin area farmers and ranchers are advised that windbreak trees for farm and municipal planting will be available again this year from the Texas Forest Service, according to Bill Lehman, county agent, and Ray Walker, junior assistant extension agent.

The trees are one-year seedlings and are available in the following species: Austrian pine, Chinese elm, ponderosa pine and red cedar.

Orders must be for 100 or more trees. Orders must be received by March 1, and payment must be remitted with order. These trees are sent prepaid at \$3 per 100.

Anyone with farm land or those in charge of municipal parks can order these trees. Order blanks are available at the county agent's office in Anson.

District P-TA Board Meets Wednesday At Hamlin for Parliamentary Courses

Board of managers of the 18th District of the Texas Congress of Parents and Teachers were meeting in the high school auditorium Wednesday. Luncheon was to be served in the school cafeteria as a courtesy to the board.

Mrs. T. A. Swenson, state representative, was to speak to the group and conduct two parliamentary courses while in the district.

On Tuesday Mrs. Swenson was presented by the Snyder P-TA city

New FHA Officers Installed by Hamlin High School Chapter

Tuesday evening at 7:30 o'clock the new officers of the Hamlin High School chapter of Future Homemakers of America were installed.

Joyce Grimm, district vice president, was a stand-in for last year's president, Elizabeth Norton. Sarah Fomby, the 1957-58 president, took over the duties of her office.

New members received their FHA pins in a formal initiation ceremony, and new yearbooks also were presented. Afterward there was a tea for all FHA members and their mothers.

Officers for 1957-58 are: Sara Fomby, president; Ginger Rabjohn, vice president; Erene Moore, secretary-treasurer; Benita Smith, reporter; Wyvonne Conner, parliamentarian; Lona Seaton, historian; Peggy Dodd, song leader; Rebecca Ferguson, pianist; Libby Johnson, sergeant-at-arms; Billie Dominey, civil defense; Joyce Grimm, district vice president; Mrs. Burt Fomby, chapter mother; Mrs. Simmons and Mrs. Carter, advisors.

"Our bumpers are locked. Does it still count as two cars?"

Plastics and Other Materials Present New Possibilities in Home Treatment

If your new home does not look different from your neighbor's, then it is your own fault. New treatments of walls, ceilings, windows and floors now are available so that with a little planning your home can become a conversation piece.

Plastic is now at home with elegance, and is offering all the advantages of utilitarian living in a smart atmosphere. Take formica, for instance. It was successful in kitchens as counter tops for long years, but has now moved on throughout the house, including the stair well.

It is being used on walls and may be installed on the job for the first time, applied to concrete, masonry or plaster. Heretofore it had to be molded and cemented to other materials, measured exactly to the space planned for it and the job done in a factory.

One of the most effective treatments is done in inter-random planning with wood grains. Choice of 17 colors may be used in block form as in a nursery. In a new house the material may be put right over half-inch plywood nailed to the studs.

A dramatic foyer treatment

shown recently involves using a vinyl flooring in a bold design of beige and black, and then matching this treatment to a formica door also done in beige, black and cocoa. Walls are in pale birch formica. The plastic travels from the walls right up the stair well, as it may be molded with no seams showing to mar the appearance of the walls.

The effects to be had are limitless in this and other plastics. Custom designs permit silk screen painting on the formica with special ink. The surface remains impervious to scratching and staining and maintains its easy cleanability.

Wood tones and effects present the newest look in home decor. If one does not have true wood paneling, the idea is presented in another way—with wood-toned wall papers, plastic paneling or plastic coated hardboard.

Color schemes that seem to take particularly well to the laminated plastic include one shown in a handsome living room—fruitwood plastic room divided with white, citron and black furnishings and accessories. A kitchen combines bronze-hued cabinets with yellow laminated plastic and white vinyl tile floor. Another combination of colors used in a living room involves a painted brick floor in blue tones from cerulean to larkspur punctuated with strong green.

Pinks and reds are used in a nursery with walls a combination of both in laminated plastic.

Mrs. Jerry LaBaume, Recent Bride, Feted At Gift Tea Saturday

Mrs. Jerry LaBaume, nee Fay Server, daughter of Mr. and Mrs. L. G. Server, was honored at a miscellaneous tea Saturday from 3:00 until 5:00 o'clock in the home of Mrs. Donnie Sanderlin, 250 Northwest Avenue G.

Mrs. Sanderlin greeted guests as they arrived and introduced the honoree; her mother, Mrs. L. G. Server; Mrs. C. E. LaBaume and Mrs. Tony Boone.

Guests were invited into the dining room where refreshments were served. The table, laid with a white Japanese embossed silk cloth, featured an arrangement of zinnias and greenery. Brenda Hargrove and Melba Osborne poured and served the cake.

The gift rooms were decorated in fall flowers. Mrs. Ned Thomas and Leon Hughes and Barbara Butler assisted in displaying the gifts.

Louise Lakey registered guests in the bride's book.

Mrs. W. C. Hargrove said the good-byes.

Dallas' first building was one room log cabin erected in 1841 by William Neely Bryne.

SCRAP PAPER WANTED!

The Celotex Corporation will purchase newspapers (no magazines) at the Hamlin plant west of town. Paper received on Friday Only from 1:00 to 3:00 p. m. in quantities not less than 1,000 pounds quantities. Paper purchased only from clubs, churches and other organizations. Prevailing market prices.

Hamlin B&PW Club To Observe Business Women's Week

Hamlin Business and Professional Women's Club is participating in the observance of National Business Women's Week, September 22 to September 28, according to Mrs. Mary Haught, local president.

The national federation annually sponsors National Business Women's Week to spotlight all women who work. First National Business Women's Week was in 1928 when there were 10,000,000 women who work. Today there are approximately 22,000,000. The theme of 1957 National Business Women's Week is "Salute to Women Who Work."

The national Federation of Business and Professional Women's Clubs, founded in 1919, is the oldest and largest national organization for women who work. There are 3,300 B&PW Clubs in the 48 states, Alaska, Hawaii and the District of Columbia. Membership totals more than 170,000. The federation is the only organization for women which includes all professions and occupations.

As a part of the week's observance the Hamlin B&PW Club will meet for a breakfast Monday morning at 7:00 o'clock at Martin's Drive-In. Mrs. Haught announces.

IMPROVING WITH AGE.
"He's not as big a fool as he used to be."
"Getting wiser?"
"No, thinner."

Odako Group of Camp Fire Girls Elects New Officers

Members of the Odako group of Camp Fire Girls met yesterday at the home of Mrs. E. J. Hawkins and elected officers for the coming year.

Elected were: Lagena Weaver, president; Lou Ann Hawkins, vice president; Sunny Marie Teague, secretary; Betty Jane Robertson, treasurer; Gloria Jenkins, scribe.

Leaders of the group are Mrs. E. J. Hawkins and Mrs. E. J. Croan. The unit consists of nine girls: Lou Ann Hawkins, Mary Ann Hymer, Sandra Jayroe, Betty Jane Robertson, Gloria Jenkins, Mary Debs Rountree, Margaret Maberry, Lagena Weaver and Sunny Teague. They are all working on their Firemaker rank.

Good Neighbor Club Completes Officers

Electing of officers for the new club year was completed when members of the Good Neighbor Club met last Tuesday at the Neinda community center. Mrs. Sydonia Lain, president, was in charge of the business session.

The hostesses, Lou Bishop and Rebecca Brown, served punch and cookies to the following members present: Mrs. Inez McCoy, Viva Joiner, Mildred Weaver, Charlene Joiner, Sydonia Lain, Garn, Adele Kelly, Arlene Faulkenberry, Vernon Hodges and Davis of Stamford.

Go to The Herald for pen refills.

Goodman Club Unit Wins \$75 Prize at Fair

Goodman Home Demonstration Club of Jones County won second place and a \$75 cash prize on a civil defense exhibit at the West Texas Fair last week at Abilene. Three other county Home Demonstration Clubs entered booths and were awarded \$15.

The Friendship Club of Hamlin also had a booth on civil defense; the Tuxedo club had one on making picture frames; and the Stith club had an exhibit on early American furniture.

Garden Club Begins Year with Tea in Arlie Cassle Home

Hamlin Garden Club opened the new club year's work with a tea in the home of Mrs. Arlie Cassle. Assisting the hostess were members of the social committee.

An arrangement of chrysanthemums in shades of yellow and bronze decorated the tea table. Appointments were in crystal and silver. Mrs. M. T. York poured punch. Cakes were served by Mrs. L. E. Prewitt and Mrs. C. R. Lovell.

Mrs. Clyde Grice presented the yearbook and stressed the theme of the year's work, "Joys of Gardening." The president, Mrs. Edgar Duncan, gave her address on "Joys of Things to Come." Mrs. LaFoy Patterson talked on "Building Better Soil."

Beta Theta Chapter Begins Year with Happiness Program

Mrs. Ed Boaz introduced the program for the year, "Happiness," when members of the Beta Theta chapter of Beta Sigma Phi Sorority held their first meeting of the new year in the home of Mrs. Earl Smith, president.

Mrs. Boaz brought the first program, "Definition of Happiness." In connection with this topic she reviewed in part "The Art of Living" by Dr. Norman Vincent Peale.

Mrs. Smith conducted the business meeting. Names of all committees were read and work for the year was outlined.

Next meeting of the group will be in the home of Mrs. Boaz on September 24, it was announced.

REAL AFFECTION.

State Capitol NEWS

By Vern Sanford, Manager,

Texas Press Association.

Austin.—For the seventy-second tire in Texas, the Legislature will convene in special session October 14.

Throughout the summer there was lively debate as to whether such a step should be taken. Governor Price Daniel put an end to speculation by setting the date. Purpose: To enact laws in regard to lobby control, representation before state agencies, crime study and water development.

Calling special sessions has been more the custom of Texas governors than not. Of the 71 previously called since Texas became a state, 41 have fallen in the 46-year period since 1911—almost one a year.

Almost all of Governor Daniel's predecessors in the past 30 years have called lawmakers back at least once. (Exceptions: Beaumont Jester and W. Lee O'Daniel). Governor Dan Moody holds the record for keeping the Legislature busy. In 10 months of 1929 and 1930 he called five special sessions.

Runners-up are Governor Miriam Ferguson, who called four in 1933 and 1934; and Governor Ross Sterling, who called four in 1931 and 1932. Governor James V. Allred called three in 1935-36, and two more in 1936 and 1937.

In those days a legislator had to keep his bag packed. What were the issues that kept the lawmakers so busy in those days? Mostly the same ones they are working on today.

In the day of Governor Moody's five calls, regular sessions were only 60 days, so a lot of routine business overflowed. But he also called their attention to special problems. Many sound familiar—improvement of the prison system "along modern and scientific lines," regulation of securities sales, investigation of charges against a state official. At one time Governor Moody vetoed all the bills and told the Legislature to try again—within the budget.

Governor Sterling asked legislators to enact a program to conserve natural resources, particularly oil and gas, and to help farmers, hard hit by sagging cotton prices. Sterling also had a states rights vs. federal courts problem in that the U. S. Supreme Court had negated Texas' oil protection laws.

Mrs. Ferguson had to call lawmakers back again and again to wrestle with the "hard times" of the thirties. Relief bonds to help the unemployed and destitute were passed. In one of her calls Mrs. Ferguson, with an eye for house-wifely problems, called on lawmakers "to make needed appropriation for refrigeration in the governor's mansion."

Governor Allred's special sessions dealt with some of the most stirring issues of the thirties. He asked for liquor selling regulations following the repeal of prohibition and for a law banning pari-mutuel betting at race tracks. He also asked for money for old age pensions (\$15 a month in those days) and for more taxes to get the general revenue fund out of the red.

In most cases, the governors got the laws they wanted—passed—sometimes by calling one session on the end of the other, sometimes in a session as short as nine days.

Water Program Okayed.—In one area—water development—legislators have their work cut out for them.

A 150-member state-wide water

committee approved a three-point program proposed by the governor. It calls for:

1. Appropriating \$1,024,000 to set up a planning division under the State Water Board.

2. Laws enabling the state to contract for water storage space in federal reservoirs.

3. An all-out push to rally support for passage of the \$200,000,000 water bond amendment to be voted on November 5. Harry Provence, Waco editor, is chairman of the campaign committee.

Lon C. Hill, Corpus Christi businessman, is co-chairman.

Window Jumping Defended.—Several people in Austin have suggested forming an "I'm bored with Ben Jack" Club.

Their attitude stems from Promoter Ben Jack Cage's refusal to testify about his part in ICT affairs during his appearances in Austin. During his flamboyant return to Texas several weeks ago Cage promised to tell things about the bankrupt company's affairs that "would have people jumping out of windows."

Cage stayed only 10 minutes when he appeared before the Travis County grand jury. When called by the House investigating committee he invoked the Texas brand of the fifth amendment and refused to testify.

If sensational information is to be revealed, it apparently will not come until Cage comes to trial in Dallas on charges of embezzling ICT funds.

Officers Hits Traffic Laws.—Texas is behind other states in traffic regulations and ahead on traffic accidents, says a Texas safety official.

C. G. Conner, assistant chief of the Texas Highway Patrol, said Texas has one of the highest death tolls in the nation. It's as much as three times as safe to drive in some other states where more up-to-date laws are being enforced, he said.

Texas had 250,000 accidents last year, Conner reported. He suggested more driver education courses for teen-agers, more traffic courts, more arresting of drunk drivers.

Officer Licensing Proposed.—Serving as a peace officer should be a profession, like law, medicine and teaching, says Attorney General Will Wilson.

Wilson suggested a state licensing program whereby would-be peace officers would have to meet certain requirements.

"New Tablet Relieves 'Hot Flashes', Irritation From Change-Of-Life Without Costly Shots!"**"Shot I took gave no relief," says W. W. Chicago. "But with Pinkham's Tablets—no hot flashes—no 'sorry for myself' spells!"****Model Photo** Science offers women new freedom from much misery of change-of-life, thanks to an amazing tablet developed especially to relieve such functional discomforts. Doctors report sensational results using this home treatment alone—and no costly injections!

Relief for 8 out of 10 tested! Irritability was calmed. Dizziness relieved. Hot flashes subsided. Here's why. This new tablet is a unique combination of special medicine and active direct on the cause of these troubles to relieve tense feelings, physical distress that bring unhappiness to so many. Clinical tests prove this.

Don't let change-of-life rob you of joy! Ask for Lydia Pinkham's Tablets. They're safe, without prescription. Contain blood-building iron. (Also liquid Lydia E. Pinkham's Vegetable Compound.)

In most cases, the governors got the laws they wanted—passed—sometimes by calling one session on the end of the other, sometimes in a session as short as nine days.

Water Program Okayed.—In one area—water development—legislators have their work cut out for them.

A 150-member state-wide water

KERRY DRAKE

It would be slow getting established, said Wilson, but would raise standards and emphasize the importance of the officer's work.

Cotton Crop Up.—Good farming plus early spring rains are paying off for Texas cotton growers. U. S. Department of Agriculture predicts the state's 1957 crop will be well above average—4,050,000 bales. Average for 1946-1955 is 3,742,000.

If the crop comes out as expected it will mean yield-pre-acre has almost doubled in the past few years. Texans put only about half as much acreage in cotton this year as in previous years when crops of similar volume were harvested.

Short Snorts.—State Health Department reports 71.8 per cent of all Texans under 20 have received one or more polio shots. About 20 per cent have had three inoculations. . . . Durwood Manford, Smiley chicken farmer and one-time speaker of the Texas House, will take office as a member of the Industrial Accident Board within the next month. He was appointed by Governor Daniel to succeed Buddy Jungmichel of Austin. . . . Texas is second in the nation in ownership of airplanes. Texas total, 5,268; California's, 7,420.

Cynics originally referred to a school of philosophers founded by one of Socrates' pupils.

Club Demonstrators Attend Training Meet On Fruit Breakfasts

Fourteen attended the leader training meeting on "Breakfast Emphasizing Citrus Fruits," conducted by Mary Y. Newberry, home demonstration agent. The meeting was held in the agent's office last Friday.

Purpose of the demonstration was to teach the nutritional importance of citrus fruit in the diet; point out things to consider when selecting or buying citrus fruit; show preparation and service of some citrus fruits for breakfast; and to plan a breakfast

menu and adjust to meet family needs.

The food leaders will give this demonstration in their own clubs.

Those attending the meeting were Mrs. N. I. Williams, Mrs. J. E. Hudson, Mrs. Mack Dore, Mrs. Roy Williams, Mrs. Cal McAninch, Mrs. Ira Treadwell, Mrs. C. H. Watts, Mrs. Gean Witt, Mrs. M. S. Johnson, Mrs. Toff Herndon, Mrs. George Pearce and Mrs. W. C. Glazner.

JUSTIFIED ACTION.

Lillian—"I quit because my boss used a couple of offensive words."

Marie—"Is that so? What did he say?"

Lillian—"You're fired!"

Pied Pipers Go to Merkel for Third Grid Game of Season

Big Delegation of Fans Slated to Go In Game Caravan

First out-of-town football game of the Hamlin High School Pied Pipers is on tap for Friday night at 7:30 at Merkel. It will be the third of non-conference games on the schedule of the Pipers.

With a victory and a tie hanging to their belts, the Pied Pipers take on the Class A Merkel Badgers with "blood in their eye," bent on improving their season record. They won their first tilt from Roby, and managed only to tie the Spur Bulldogs Friday night with a 7 to 7 score.

Coach Neil Laminack, who last Friday night scouted the Cross Plains-Merkel game at Merkel, declares the Badgers look plenty rough and ready. Formerly in the conference loop with Hamlin, the Badgers have been reclassified in Class A competition.

Head Coach D. C. Andrews says he has been working hard with his charges this week to "get some bugs" out of some of their plays that showed up in the Spur tilt. No major injuries will hamper the boys. He plans to use about the same starting line-up in the Merkel game he has used in the two previous tilts.

A big delegation of boosters will follow the Pied Pipers to the Merkel melee. Fans will meet Friday evening at 6:00 in front of the high school building, where the cars will be decorated with the school colors by high school girls. Then the cars will go in a caravan to the game. Hamlin Pied Piper Booster Club is sponsoring the caravan.

DISTRICT 4-AA STANDINGS

Football ratings began to take shape this week after five of the six District 4-AA teams had reeled off two games each. Rotan was idle over the weekend.

The standings, after last week's games, looked like this:

Team	P.	W.	L.	T.	Pt.
Stamford	2	2	0	0	1,000
Seymour	2	2	0	0	1,000
Hamlin	2	1	0	1	.750
Anson	2	1	1	0	.500
Haskell	2	1	1	0	.500
Rotan	1	0	1	0	0,000

Results Last Week.

Hamlin 7, Spur 7.
Stamford 8, Ballinger 0.
Anson 19, Winters 0.
Seymour 53, Munday 0.
Olney 16, Haskell 14.

Where They Play Friday.

Hamlin at Merkel.
Anson at Spur.
Haskell at Rotan.
Burkburnett at Seymour.
Slaton at Stamford.

Nine-Game Schedule Faces HHS B Team For Football Season

A nine-game schedule has been announced for the B team of Hamlin High School. Four of the games will be at home and five away from home.

The complete schedule follows:

September 12—Hamlin at Spur.
September 19—Abilene Sophs at Hamlin at 7:30 p. m.

September 26—Anson at Anson.
October 3—Haskell at Haskell.
October 10—Open.

October 17—Rotan at Hamlin at 7:30 p. m.
October 24—Anson at Hamlin at 7:30 p. m.

October 31—Rotan at Rotan.
November 7—Hamlin vs. Abilene Sophs at Fair Park Stadium in Abilene at 4:00 p. m.

November 14—Haskell at Hamlin at 7:30 p. m.

Corn acreage in the United States exceeds that of wheat, oats, barley, rye and rice combined.

In its earlier years Detroit was proclaimed as the "Constantinople of the Western World."

District 4-AA Teams Win Three, Tie One and Lose One in Week-End Games

Teams of District 4-AA did not improve their winning records last week-end much, winning three, losing one and tying one game. Another member of the loop, Rotan, had an open date.

Seymour Panthers looked good to take Munday's measure by a thumping 53 to 0 decision. Anson Tigers, who had lost their first game, rolled up a 19 to 0 victory over the Winters Blitzards. And Stamford kept its slate clean by an 8 to 0 win over the Ballinger Bearcats. Hamlin tied Spur and Haskell lost a 16 to 14 tilt to Olney.

Taking advantage of Munday's fumbles at every turn, the Seymour Panthers showed under the Moguls with a 50 to 0 score in a melee played at Munday Friday night.

Scoring for the Panthers were Billy Ryan two, Eddie Syptak, R. L. McClung, Larry Martin, Tommy Morris and Chuck Harris. The final Seymour touchdown was the result of a Munday fumble on the goal line which three Panthers covered.

Although fairly well matched in

Sportsmen Generally Approve Increased Texas License Fees

A survey by Sportsmen's Clubs of Texas indicates that Texas hunters and fishermen have embraced the new fee schedule of licenses with only sporadic grumbling, says Cecil Reid, SCOT executive secretary, in release this week to The Herald.

Balance of the first period and the next two quarters were scoreless as the heavies and the Pipers exchanged power plays and forward passes that bogged down before the goal line was reached.

Then in the final minute of the thrill packed game, Quarterback Bill Murff tossed a pass to Right End Charles Jenkins that was good for 48 yards, Jenkins being downed just one foot short of pay dirt. Murff then went over on a quarterback sneak on the next play to make the count 7 to 6. Hamlin fans were on their feet as Lanier Foster converted the extra point to tie up the old ball game.

Spur rolled up 16 first downs to 10 for Hamlin, and made 173 yards rushing to 107 for the Pipers. The Pipers made 42 yards in completing two of five passes, while the Bulldogs completed two of eight passes for 30 yards.

In its earlier years Detroit was proclaimed as the "Constantinople of the Western World."

Many Licenses Are Being Issued in State

Increasing numbers of Hamlin area hunters and fishermen have been issued licenses, it is announced.

Hunting and fishing license business in Texas this year has been the biggest in the history of the Game and Fish Commission. This comes from the chief clerk, who for the past two weeks has been filling re-orders from practically every area in the state.

Receipts at Spur Tilt Total Over \$1,000

FOR YOUR fall planting needs we have Early Triumph wheat, Nortex oats, rye, barley, Austrian winter peas, vetch, Mustang oats and limited amount of certified Crockett wheat.

For your fertilizer needs we have spreaders for farm and for lawns; use 16-20-0, 10-20-10 and 0-45-0 superphosphate. Now is the time for applying fertilizer and copperas to your lawns.—Pied Piper Feed Mills, division of F. B. Moore Grain Company, phone 168, Hamline, Texas. 47-tfc

YOU SAVED and slaved for wall-to-wall carpet. Clean it with Blue Lustre.—R. Y. Barrow Furniture Company.

B Squad Gridders Set Pattern With 7-7 Tie Against Spur

Gridders, the B team of Hamlin High, set the pattern Thursday night for scoring against teams from Spur, when they came to the end of the way with 7 to 7 tie with the Spur B string. The following night the high school crews of the two towns played to a 7 to 7 tie at Hamlin.

Coach Neil Laminack's charges made a touchdown on the second play of the game when Robert Brandon took a pass from Michael Bond and tramped 60 yards for the marker. Wesley Cummings ran over the extra point.

It was a tussle between fighting crews during the next 20 minutes, each team making tries for the double stripes that bogged down each time.

Spur opened a drive the middle of the second quarter that ended with a touchdown, and they also ran over the extra point.

In the third period the B crew pushed over another touchdown when Jimmy Hill caught a pass from Bond, only to have it called back on a penalty. The Hamlin boys could not push it over again.

Second game on the B string schedule is this (Thursday) evening against the Abilene High Sophomores at Abilene Fair Park Stadium.

Broom Sales to Be Center of Fight Within Lions Club

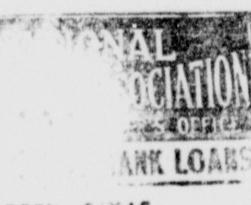

New enthusiasm was added to the forthcoming annual caravan for the blind, in which brooms and other articles made by the blind and people with deficient eyesight are sold by members of the club, when Stanley Carmichael, one of the team captains, issued vindictives, threats and other challenges to his opponent, Ted Russell, at the Tuesday noon luncheon meeting of Hamlin Lions Club at the oil mill guest house.

The spirited sale will be conducted Wednesday, October 9, by members of the club. Net proceeds will be used by the local club for work among the people of the Hamlin territory with deficient eyesight.

Scarlet Kidd of Aspermont, who has appeared recently in radio broadcasts and made several recordings, sang three numbers, "Fallen Star," "Goodie, Goodie" and "Old Fashioned Girl," accompanied at the piano by Elva Siburt. Miss Siburt also rendered a piano number, "Kitten on the Keys."

Besides the girls, other guests at the Tuesday luncheon included Ed Roberts and Harry Hale of Abilene and R. E. (Curly) Maynes.

New Type Grains Recommended for Planting in Area

Crockett wheat and bronco oats are two new small grain varieties we will be hearing more about this fall, according to Bill Lehner, county agent, and Ray Walker, junior assistant agent.

A few acres of Crockett wheat were sown in the Hamlin area last fall and matured a good crop this spring.

Crockett is a new variety of hard red winter wheat developed by the Texas Agricultural Experiment Station and the United States Department of Agriculture. It is an early maturing variety, has high test weight and produces high yields of grain of approved quality. While not immune to rusts, it has greater disease resistance than most commercial varieties now available.

Crockett is similar to Wichita in general appearance. It is a bearded wheat having white chaff with black strips similar to other Blackhull type wheats. It produces a grain of high quality for milling purposes.

Bronco oats was developed from a cross of Lee Victoria and Fulwin. In regional trials throughout the Southern states Bronco produced one of the most outstanding records of any oat variety yet developed. Although a sister of Mustang, Bronco is different in many respects.

Seedling growth habit is very prostrate during early winter and the variety responds slowly to periods of warm weather. This characteristic probably is responsible for its good survival record, but makes it less desirable for winter pasture. It is tall with large strong straw. The grain is of moderate size and may vary in color from light red to near white, with light gray stripes under some environmental conditions.

Both of these new varieties should be given a test in Jones County to see if they are better than other present varieties, according to the agents.

Two-County Singers To Meet at Stamford

Foursquare Gospel Church in Stamford will be the site Sunday afternoon for the regular Haskell and Jones County singing, it is announced by songfest officials.

Singing will get underway at 2:00 o'clock, and the public is invited to attend.

Copyrights extend for a period of 28 years.

Moderate Damage Being Done Now By Cotton Insects

Only moderate damage is being done to the cotton crop in North-West Texas, in which the Hamlin section is included, according to the weekly cotton insect report released to The Herald by the Texas Agricultural Extension Service in cooperation with the Plant Pest Control Branch of the U. S. Department of Agriculture.

Complete report for the area follows:

Thrips infestations were reported from Jones, Motley and Collingsworth Counties. Fleahopper infestations were light in Jones and Kent; medium in Stonewall and Foard; and light to heavy in Motley, Collingsworth and Wichita Counties. Bollworm infestations were light in Jones, Foard, Kent; medium in Stonewall, Baylor, Scurry, Garza and Motley; and medium to heavy in Collingsworth and Wichita Counties.

Boll weevil populations were medium in Wichita County. Leafworm infestations were reported light in Scurry, Mitchell, Kent, Collingsworth and Jones; medium in Stonewall, Wichita and Motley; and heavy in Baylor County.

Cabbage looper damage was reported light in Kent and Collingsworth; and medium in Baylor County.

Aphid populations were reported light in Collingsworth and medium in Motley Counties. Garden webworms were reported doing damage along the edges of fields in Motley and Jones Counties.

Whitefly infestations were heavy in Baylor and Stonewall Counties.

HILLS VISIT RELATIVES.
Mr. and Mrs. Alvin Hill of Mabank are visiting their son, Elize R. Hill, and family. The last week they visited with their daughter, Mrs. George Vance, and family at Hobbs, New Mexico. The elder Hills formerly lived at Hamlin for many years.

Rubber bands at The Herald.

SURE IDENTIFICATION.
Ethel Fisher, fourth grade teacher at Fredericksburg, reports: Last week a 10-year-old boy informed me that he and his older sister had shoes alike. Then he confided:

"I have to smell them to see which are mine. Mine stink and hers smell like perfume."
